Asian Heritage Month:

A Message from the Municipality of the County of Kings

May is Asian Heritage Month. The declaration of May as Asian Heritage Month provides an incredible opportunity to learn about Asian culture and build public awareness about the significant contributions of the Asian population.

This year's Asian Heritage Month theme is innovation and perseverance. The theme embodies the creativity and tenacity of the Asian community. It also promotes the resilience of the Asian community that has stood the test of time in spite of high levels of hate crimes that have been levied toward the Asian community.

Happy Asian Heritage Month to residents throughout the Kings Region and beyond!

The Municipality of the County of Kings rejects all forms of hate against communities, prejudices and unfair treatment of individuals. Further, the Municipality is committed to inclusion and the vision of "a community of communities where all people belong."
