Repairs Crews Working on Harvest Moon Trail in Kentville: Proceed with Caution

June 7, 2024

Harvest Moon Trail users travelling in Kentville are asked to watch for overland hoses, heavy equipment and safety barriers at the trail intersections of West Main Street and the Harvest Moon Trail until further notice.

Crews are on site repairing an underground sewer line located at the west end of West Main Street in Kentville. This work involves heavy equipment and excavation at the site.

Please respect the barriers in place and walk any active transportation equipment through this section to keep the trail clear for crews working to complete the necessary repairs and restoration work.

For updates, check back with the Municipality's website – www.countyofkings.ca – or follow @KingsCountyNS on [Facebook](#) and [Twitter](#).
