Aylesford Public Lake Beach Reopens for All Uses

July 10, 2025

Aylesford Lake Public Beach reopened today (July 10) for all uses.

The public beach was closed to swimming and paddle boarding as a precautionary measure due to higher than acceptable bacteria counts in water tests reported on July 8. Water quality tests conducted following the beach closure have confirmed that it is safe to reopen Aylesford Lake Public Beach.

The Municipality of the County of Kings apologizes for any inconvenience beach closures may cause.

In addition to posting signage at the site, the Municipality publishes updates about Aylesford Lake Public Beach closures on www.countyofkings.ca and the Municipality's [Facebook](#) and [X](#) accounts.
