Road and Trail Closure Notice: Regional Sewer Line Replacement in Kentville

Aug. 12, 2024

A section of West Main Street near the far west Park Street intersection in Kentville and portion of the nearby Harvest Moon Trailway will temporarily be closed starting Tuesday, Aug. 13, to allow for critical upgrades to regional sewer lines servicing the area.

- West Main Street will be closed from the far west Park Street intersection (near Evergreen Home for Special Care).
- The Harvest Moon Trail will be closed from Kings County Academy to Evergreen Home for Special Care.

It is estimated the closed sections of West Main Street and the Harvest Moon Trail will reopen Wednesday, Aug. 14, at 5 p.m.

The closures are necessary to safely upgrade an underground sewer line connected to the Regional Sewer Treatment Plant in New Minas.

To minimize disruptions during the line replacement work, we ask Harvest Moon Trail users to:

- Respect closure signs and avoid entering closed sections
- Plan alternative routes
- Stay informed through our website and social media

Please respect the barriers in place to keep the trail clear for crews working to complete the line replacement work. For updates, check back with the Municipality of the County of Kings website – www.countyofkings.ca – or follow @KingsCountyNS on [Facebook](https://www.facebook.com/KingsCountyNS) and X (formerly [Twitter](https://twitter.com/KingsCountyNS).)

We appreciate the public's patience throughout these important upgrades that will benefit communities served by the Regional Sewer Treatment Plant and the environment in which we operate.

Thank you for your cooperation.
