New sidewalk under construction along Scott Drive in North Kentville

The Municipality of the County of Kings wishes to advise Scott Drive residents and users that construction is now underway on a new sidewalk that will complete the North Kentville walking loop.

Construction began earlier this week and it is anticipated the work will continue for about two months. The new sidewalk will span a 780-metre section of Scott Drive that runs between Nichols Avenue and Governor Court.

The Municipality is asking members of the public to plan ahead for the possibility of lane closures and detours along Scott Drive at various points throughout the construction process. Please have patience with the construction crew, and consider alternate routes when possible.

Questions or comments? Please contact Civil Engineering Technologist Tammie Bezanson at 902-690-6113.
