DESLUDGING: Hants Border Wastewater Treatment Plant
Oct. 28 – Nov. 8, 2024

KINGS COUNTY, N.S. - The Municipality of the County of Kings will be conducting important maintenance work at the Hants Border Wastewater Treatment Plant during the weeks of Oct. 28 and Nov. 4, 2024.

The upcoming desludging activities will increase storage capacity by removing sewage sludge that has accumulated within the treatment system. This work will support the uninterrupted delivery of critical wastewater treatment services.

There may be an increase in heavy equipment traffic near 208 Avon Street in Hantsport while the desludging work is underway. Please respect traffic authorities and signage in place for the safety of workers and the public.

It is possible there will be temporary periods of odours/noise during the desludging process. The Municipality apologizes for any frustrations or inconvenience this may cause.
