MUNICIPALITY of the COUNTY of KINGS

Municipality Awards $100,000 in School Food Program Funding

Nov. 5, 2026

The Municipality of the County of Kings is helping local schools put healthy food options on the table for their students.

The Municipality recently awarded $100,000 in School Food Program Funding in support of eligible initiatives at 23 public schools in Kings County. The participating schools are receiving between $3,400 and $5,800 in financial support.

“The Municipality understands the importance of all students having access to healthy and nutritious food at school. We are proud to support school food initiatives that directly contribute to student well-being and success,” said Municipality of the County of Kings Mayor Dave Corkum.

Funding is awarded to support the operation and enhancement of programs that make healthy and nutritious food more accessible to students, such as breakfast programs and snack carts. The funding can be used for food, equipment, supplies or personnel costs related to program delivery.

Examples may include breakfast programs, snack cart initiatives, food preparation equipment, and other resources that strengthen the overall impact of the school food program.
