Spotlight on Services: Municipal Web Map Apps

KINGS COUNTY, N.S. – Did you know the Municipality has interactive online mapping apps supporting a variety of services?

- The Road and Sidewalk Maintenance App is an interactive, web-based mapping tool that helps residents of the Municipality find contact information for the agency responsible for plowing and maintaining specific roads or sidewalks in the Municipality of the County of Kings. Residents can type an address into the search bar at the top of the digital map to learn who owns the road, and who is responsible for maintaining it. Try it out here:
<https://kingscounty.maps.arcgis.com/apps/webappviewer/index.html?id=8605824c2d0649d8817cffb701a1f6e2>
- The Municipality of the County of Kings Public Atlas is an online map displaying information about: addresses and properties, cultural and natural assets, heritage and UNESCO sites, geographic boundaries and emergency management. Try it out here:
<https://experience.arcgis.com/experience/afdc21f0ee6f4e6e806b6d11054d9222/>
- Stay tuned for the return of the Light Up Kings digital holiday display map in December. Check back with us Dec. 1 for more details on this Facebook page or
www.countyofkings.ca.

That's a wrap on our "Spotlight on Services" features for Municipal Awareness Week. Visit www.countyofkings.ca for a recap if you're interested in learning about services highlighted earlier this week.
