

CHANGES TO THE BUILDING CODE REGULATIONS!

As of January 1, 2020, there have been changes to the regulations and the requirements for permits.

The \$5000.00 threshold has been removed for non-structural projects.

Building permits are required for commercial non-structural projects when the material repairs or maintenance have a monetary value of \$10,000.00 or more.

There have been other amendments to the regulations as well which now include such things as tiny homes.
