

New Aylesford Lake Beach Washrooms

MUNICIPALITY *of the*
COUNTY *of* KINGS

Enhancing the Aylesford Lake Experience

The 2023 opening of an accessible and inclusive indoor washroom facility at Aylesford Lake Beach marks the completion of a strategic project designed with the community in mind.

Unlike the portable toilets and wooden change houses of the past, the new washrooms facility at Aylesford Lake is a permanent fixture with modern amenities. The building features two accessible changing rooms and four accessible, single-stall washrooms with flushable toilets. A bright, red freestanding shower facility can be found on the outside wall facing the lake.

Roscoe Construction was awarded the contract for building a permanent washroom facility at Aylesford Lake Beach in September 2022. The new facility completed in July 2023 will enhance the core services offered at a popular community-based recreation destination in the Municipality of the County of Kings.

Municipal Council identified the construction of an indoor washroom and changing facility at Aylesford Lake Beach as a top priority during the development of Strategic Plan 2021-2024. The project, managed by the Municipality's Department of Engineering and Public Works, aligns with the Key Strategic Priority of Strong Communities.

Where to Find the Beach

580 North River Road,
Aylesford Lake,
Nova Scotia

New Aylesford Lake Washrooms and Changing Facility

The **Atlantic Canada Opportunities Agency (ACOA)** contributed \$250,000 to support the construction of accessible and inclusive washrooms and changing stations at Aylesford Lake Public Beach. The Municipality of the County of Kings was awarded the funding through ACOA's Innovative Communities Fund, a program dedicated to increasing opportunities for economic development in Atlantic Canada. The improved amenities will make a trip to the Municipality's prime recreation destination in the summer months more enjoyable for beachgoers of all ages and abilities.
