

**Municipality of the
County of Kings
BY-LAW 106
LAND USE BY-LAW**

Adopted by Municipal Council:

November 21, 2019

**Amended and Approved by the Minister of
Municipal Affairs:**

March 5, 2020

Amended to April 17, 2026

Organization of Municipality of the County of Kings Land Use By-law

The following is intended for reference and does not form part of the Municipality of the County of Kings Land Use By-law

The Land Use By-law regulates the use of land and buildings in the Municipality of the County of Kings by type, location and intensity, and by setting procedural requirements for permit applications to develop property.

The Land Use By-law implements the Municipality's land use policies, in the Municipality of the County of Kings Municipal Planning Strategy; however, it is the responsibility of the applicant or property owner to ensure compliance with all applicable municipal, provincial and federal legislation.

As a reference document, the Land Use By-law's Table of Contents is an important index. The By-law is organized in five (5) parts that group sections with related information. The five (5) parts are as follows:

PART 1: INTRODUCTION contains basic information on the legal framework of the By-law.

PART 2: LAND USE ZONES contains Zoning Maps, permitted uses and general subdivision and development standards for each zone. Overlays outline regulations that may apply to specific areas in the Municipality in conjunction with the zone regulations. The official Zoning Maps identify overlay areas as well as the zones. The Zoning Maps and Overlays are also available on the Municipal website at www.countyofkings.ca.

PART 3: DEVELOPMENT REGULATIONS contains general regulations that apply to uses and development. These regulations supplement those in the Part 2 and are generally cross-referenced.

PART 4: PROCESS provides information on the Municipality's development application procedures.

PART 5: DEFINITIONS define uses and terms in the Land Use By-law to assist in the interpretation.

Using the Land Use By-law to determine zoning and regulations for a Specific Lot

1. To determine the zoning regulations applicable to a specific lot, you must first find the site on the official Zoning Maps. The appropriate map will show the land use zone that applies to the site. It will also show if the site is subject to an overlay.
2. Look up the corresponding regulations. Start with the Land Use Zones (Part 2). The zone identifies what uses are permitted and may be subject to additional conditions and contains development standards that apply to the uses, such as density and lot requirements. Information on overlays that may apply to the lot is also contained in Part 2.
3. Look up the General Regulations (Part 3). The General Regulations apply to all lots in all zones and provide information on requirements including, lot and development standards, parking requirements and sign requirements. The Alternative Energy Generation Regulations apply to the Wind Turbine Overlay.

4. Refer to Part 4: Process and Part 5: Definitions for additional information.
5. Discuss your proposed land use or development with a development officer from the Municipality.
6. For properties located in the Grand Pre area, refer to the Grand Pre Heritage Conservation District Plan, By-law and Guidelines to determine if they are applicable.

Part 1 INTRODUCTION

Section 1 ENACTMENT

Section 2 ADMINISTRATION

SECTION 1 - ENACTMENT

1.1 Title

This By-law may be cited as the "Municipality of the County of Kings Land Use By-law".

1.2 Purpose

1.2.1 The purpose of this By-law is to implement the policies of the Municipal Planning Strategy to facilitate the orderly, economical, and beneficial development and use of land and buildings within the Municipality, and for that purpose the By-law, among other things:

- (a) divides the Municipality into zones;
- (b) prescribes and regulates for each zone the purposes for which land and buildings and structures may be used;
- (c) establishes the office of one or more development officers; and
- (d) establishes a method of making decisions on applications for development permits, including the issuing of development permits.

1.2.2 This By-law shall be applied in accordance with the Municipality's Municipal Planning Strategy and the *Municipal Government Act* (hereinafter the "Act") as amended from time to time.

1.3 Control of Development

Except as otherwise provided herein, no building or structure shall be erected, demolished or otherwise altered nor the use of any building, structure or lot changed without an issued development permit, which shall not be issued without compliance with all provisions of this By-law.

1.4 Previous By-laws

County of Kings Land Use By-law #75 and New Minas Land Use By-law #57 are hereby repealed.

1.5 Effective Date

This By-law is effective at the date of publication of provincial approval by the Municipal Clerk in accordance with the Act.

1.6 Severability

The invalidity or unenforceability of any provision of this By-law, as determined by a court of competent jurisdiction, shall not affect the validity or enforceability of any other provision, and any invalid provision will be severable.

1.7 Compliance with Other Legislation

Nothing in this By-law shall exempt any applicant or property owner from compliance with any other applicable municipal, provincial or federal legislation or from any license, permission, permit authority or approval required by this or any other by-law of the Municipality, or other lawful authority.

1.8 General Interpretation

- 1.8.1 Unless otherwise provided, any enactments referenced herein are to the Act and regulations as amended, revised, consolidated or replaced from time to time. Any By-law referenced herein is to an enactment of the Municipality of the County of Kings Council, as amended, revised, consolidated or replaced from time to time.
- 1.8.2 The headings given to sections and subsections in this By-law are for reference only; they do not form part of this By-law and are not intended for interpretation purposes.
- 1.8.3 In Part 2 of this By-law setting out the land use zones, the Summary of Permitted Uses provided at the front of each section is for reference only. If the Summary of Permitted Uses conflicts with the list of Permitted Uses and any applicable conditions in the respective section for a particular zone, the lists provided in that zone shall govern.

1.9 Rules of Interpretation

- 1.9.1 Compliance with the regulations in this By-law shall be interpreted and applied as follows:
- (a) "shall" is mandatory.
 - (c) "may" is discretionary.
- 1.9.2 Where a regulation involves two or more conditions, provisions or events connected by a conjunction, the following shall apply:
- (a) "and" means all the connected items shall apply in combination.
 - (b) "or" indicates that the connected items may apply singly or in combination.
- 1.9.3 Words used in the singular include the plural and vice-versa.
- 1.9.4 When a word is used in the masculine it will refer to any gender.
- 1.9.5 When a word is defined in Part 5, it shall have the same meaning if the first letter is an upper or lower case letter.
- 1.9.5 All other words shall have the meaning assigned to them in the Act.
- 1.9.6 All measurements in this By-law are in imperial units. In the case of any conflict between information expressed in metric units and in imperial units, the imperial unit shall govern.
- 1.9.7 In the case of any conflict between a number written in numerals and a number written in letters, the number written in numerals shall govern.
- 1.9.8 In the case of any conflict between the text of this By-law and any maps or drawings used to illustrate any aspect of this By-law, the text shall govern. Colour coding throughout this By-law and the Zone Maps is for ease of reference only and the text of the By-law shall govern.

- 1.9.9 If a use is not listed as a permitted use in a particular zone, or if it is not an accessory use to a permitted use in a particular zone or the use is otherwise excluded, it shall be deemed to be a prohibited use in that zone.
- 1.9.10 Where a permitted use within any zone is defined in Part 5, the uses permitted within that zone shall include any similar use that satisfies such definitions except where a definition is specifically limited to exclude a use.
- 1.9.11 Where a use is defined in Part 5, it shall not include any other use unless a use is deemed accessory or unless otherwise specified.

SECTION 2 - ADMINISTRATION

2.1 Administer

This By-law is administered by the Development Officer.

2.2 Appointment

Council shall appoint one or more Development Officers for the Municipality of the County of Kings in accordance with the Act.

2.3 Final Decision

The decision of the Development Officer concerning whether a development meets the provisions of this By-law is final, subject to any legislated right of appeal in the Act.

2.4 Right to Enter

The Development Officer is authorized to enter, at all reasonable times, into or upon any property within the Municipality of the County of Kings for the purpose of any inspections necessary to administer the Land Use By-law in accordance with the Act.

2.5 Contravention

The Development Officer may enforce the provisions of the Act, the conditions of a development permit and this By-law.

Section 13	WELLFIELD PROTECTION OVERLAYS

SECTION 3 - ESTABLISHMENT OF LAND USE ZONES

3.1 General Requirements

- 3.1.1 Land use zones and the associated zone provisions are established for the Municipality in accordance with section 1.2 of this By-law.
- 3.1.2 The Zoning Maps constitute part of Part 2 of this By-law and can be found in Appendix A. Part 2 provisions establish permitted uses and development regulations for the zones shown on the Zoning Maps.
- 3.1.3 Part 3 comprises all general and alternative energy generation regulations for uses and developments in addition to the regulations contained in Part 2.

3.2 Development Agreements

- 3.2.1 In limited circumstances, as described in the Municipal Planning Strategy, certain uses that would otherwise be prohibited may be considered by Council per section 225 of the Act and, in such cases, a Development Agreement shall be considered by Council in accordance with the Act.

3.3 Zone Boundaries and Overlay Extent

- 3.3.1 The boundaries of the zones and the extent of the overlays identified on the Zoning Maps shall be interpreted as follows:
 - (a) Where a zone boundary follows a public road or railway, it follows the centreline, unless otherwise indicated.
 - (b) Where a zone boundary is shown as approximately following a boundary of the Municipality, it follows the Municipal boundary.
 - (c) Where a boundary is shown as approximately following the edge or shorelines of any river, lake, creek or other water body such as the Minas Basin or Bay of Fundy, it follows the edge or shoreline. In the event of a change in the location of said edge or shoreline, it moves with the same.
 - (d) Where a zone boundary is shown as approximately following a lot or parcel line, it follows the lot or parcel line that existed at the time the zone boundary was established.
 - (e) Where a zone boundary is indicated as following the limits of a municipal unit, a town, a Department of National Defence property, a First Nations Reserve or another Federal property, the zone limits are these boundaries; and
 - (f) For circumstances not covered above, the location of the boundary or extent shall be determined by any dimensions set out in this By-law and by measurements of the Land Use By-law Zoning Maps.
- 3.3.2 Where section 3.3.1 does not determine the exact location of a zone boundary or overlay extent, the Development Officer shall determine the exact location of the zone boundary or overlay

extent, in a manner consistent with this By-law and with detail as to measurements and directions as circumstances require. The zone boundary or overlay extent shall not be altered, except by amendment to this By-law.

- 3.3.3 The Municipality has, to the best of its abilities, identified areas at risk of flooding, erosion, slope failure or at risk due to other unique features based on the best information available to the Municipality. The Municipality does not make any representations about the accuracy of this information or provide any assurances that the risk will not exceed these predictions or occur in other areas. Property owners are responsible for all risks associated with development, including the effectiveness of flood resistant measures, and the impacts of development on neighbouring properties.

3.4 Zoning Maps and Overlays

- 3.4.1 The Zoning Maps that form part of this By-law identify the specific land use zones and overlays that apply to a specific parcel of land.

- 3.4.2 Pursuant to sections 12 and 13 of this By-law, when determining the permitted use or development of any property, the presence of a map Overlay applies in addition to the conditions set out in the underlying zone.

- 3.4.3 Maps listed below form part of this By-law:

(ii) Accessory Buildings	20 ft.	20 ft.	20 ft.	20 ft.

4.5.4 Additional Requirements

4.5.4.1 Community Facilities, Indoor Recreation Uses and Places of Worship

A community facility or indoor recreation use shall be permitted in the Residential Mixed Density (R3) Zone subject to the conditions noted below.

- (a) Parking areas shall not be located less than four (4) feet from a side or rear lot line and shall be fenced.
- (b) Notwithstanding the parking requirements in section 14.5, a parking space shall be provided and maintained for every 300 square feet of commercial floor area.

4.5.4.2 Pedestrian Pathways

Where a residential development consists of five (5) or more residential units on a single lot and where that lot abuts an existing or planned sidewalk or public trail, pedestrian pathways shall be provided and connect the main entrance of each residential unit to the sidewalk or public trail abutting the lot.

Pedestrian pathways shall have a width no less than five (5) feet wide and shall be maintained as a stable surface free of snow or other debris. (*Amended October 1, 2024, File P21-01*)

4.5.4.3 Amenity Areas

Except for grouped dwellings and townhouses, any development on a single lot with five (5) or more residential units shall meet the conditions noted below.

- (a) An amenity area or areas equivalent to 100 square feet per residential unit or ten (10) per cent of the lot area, whichever is greater, shall be provided.
- (b) Common outdoor spaces shall not be located within the minimum required front or flankage setbacks unless there is a public sidewalk abutting the lot.

4.5.4.4 Solid Waste Storage for Multi-unit Dwellings

New multi-unit dwellings and additions to existing multi-unit development shall provide adequate solid waste storage for use by residents. Such solid waste storage shall be:

- (a) enclosed within a main or accessory building; or
- (b) enclosed within a six (6) foot high opaque board fence that effectively screens the storage from the road and adjacent residential properties and such an area shall meet the requirements for an accessory building.

4.5.4.5 Parking

For multi-unit dwellings, no parking shall be permitted in a required minimum main building side setback abutting a Residential One Unit (R1) Zone and Residential One and Two Unit (R2) Zone.

4.5.5 Uses Considered by Development Agreement

Pursuant to the Municipal Planning Strategy, the uses noted below may be considered by Development Agreement within the Residential Mixed Density (R3) Zone.

- (a) The establishment of community facilities that are not permitted as-of-right, or do not meet the requirements of the zone in which the lot is located in accordance with policy 3.1.6 of the Municipal Planning Strategy.
- (b) The re-establishment of a commercial or industrial use that has been discontinued for a period of 12 months or more in accordance with policy 3.1.7 of the Municipal Planning Strategy.
- (c) Uses compatible with the purpose of the Residential Mixed Density (R3) Zone that do not otherwise meet the requirements of the zone in accordance with policy 3.1.8 of the Municipal Planning Strategy.
- (d) High density residential development and new or expanded mini-home parks in accordance with policy 3.1.10 of the Municipal Planning Strategy.
- (e) Uses considered by Development Agreement in all zones listed in section 14.7.

4.6 RESIDENTIAL MULTI-UNIT (R4) ZONE

4.6.1. Zone Purpose

The purpose of the Residential Multi-unit (R4) Zone is to encourage compact neighbourhood development in strategic locations such as along or near main transportation corridors and near employment and shopping destinations by accommodating a variety of medium density housing forms, such as multi-unit dwellings within Growth Centres, as per policy 3.1.2 (c) of the Municipal Planning Strategy. *(Amended February 6, 2024, File P22-02)*

8.3.4 Additional Requirements

8.3.4.1 Residential Uses

New residential uses are permitted between two dwellings in existence on the date of adoption of this By-law that are no more than 300 feet apart or between a dwelling in existence on the date of adoption of this By-law and a public road that are no more than 300 feet apart, in accordance with policy 3.4.12(d) of the Municipal Planning Strategy. For clarity, the distance shall be measured at the required front setback on a perpendicular line extending from the road to the nearest applicable point to the adjacent dwelling or public road. Additional requirements noted below shall also apply.

- (a) Existing dwellings are required to have been in existence on the date of adoption of this By-law and may include farm dwellings but shall exclude farm tenements.

- (b) Lots may be either newly created or in existence on the date of adoption of this By-law.
- (c) Notwithstanding (b) above, residential uses may be located on lots described in subsection 14.2.5 related to existing undersized lots, subject to the separation distance requirements of this subsection.

8.3.4.2 Site Plan Approval

Residential uses permitted under section 8.3.4.1, and residential uses replacing an existing residential use in a substantially different location, shall be subject to site plan approval in accordance with the criteria below and in accordance with policy 3.4.13 of the Municipal Planning Strategy. *(Amended October 1, 2024, File P21-01)*

- (a) Residential uses shall locate as close to the front lot line as possible. The dwelling and all accessory buildings shall be within 150 feet of the front lot line, measured from the rear wall of the dwelling or accessory building, unless restricted by topography or it is shown that the impact on agricultural lands is greater than if the dwelling and accessory buildings were located elsewhere.
- (b) Written acknowledgement by the property owner that the dwelling is located in an agricultural area.
- (c) The addition of a second residential unit to a one unit dwelling shall not be subject to site plan approval. *(Added for clarity, October 1, 2024, File P21-01)*

8.3.4.3 Farm Dwellings, Farm Tenements and Bunkhouses

Farm dwellings, farm tenements and bunkhouses shall be permitted on a farm property subject to the criteria below.

- (a) The farm dwelling, farm tenement or bunkhouse shall be accessory to a farming business and shall not be the first main farm building on the lot. For clarity, more than one farm tenement is permitted per lot provided all requirements of this By-law are met. *(Amended October 1, 2024, File P21-01)*
- (b) The property owner shall demonstrate that the farm dwelling, farm tenement or bunkhouse is part of a farming business operating on the farm property where it is located.
- (c) At the time of application for a new farm dwelling, farm tenement or bunkhouse, the gross revenue of the property owner from the farming business exceeded the income from all other sources for the preceding tax year.

8.3.4.4 Reuse of Existing Buildings

Notwithstanding 8.3.4.1, an existing community facility or place of worship may be converted to a one or two unit dwelling.

8.3.4.5 Topsoil Removal

Topsoil removal shall be prohibited except for removal that is incidental to a permitted use and excavation associated with the construction of buildings and infrastructure, in accordance with policy 3.4.10 of the Municipal Planning Strategy.

8.3.5 Uses Considered by Development Agreement

Pursuant to the Municipal Planning Strategy, the uses noted below may be considered by Development Agreement within the Agricultural (A1) Zone:

	(ii) Accessory Buildings	10 ft.
(h)	Maximum Building Height:	
	(i) Main Buildings	35 ft.
	(ii) Accessory Buildings:	20 ft.

** Except in relation to boathouses, in cases where the minimum rear setback and minimum shoreline setback conflict, the requirement that places buildings farther from the shoreline shall apply.*

1. Amended to add "Accessory Buildings", October 1, 2024, File P21-01

9.3.4 Additional Requirements

The following additional requirements shall apply to all residential development in the Lakeshore Residential (S1) Zone (*Amended October 1, 2024, File P21-01*):

9.3.4.1 Maximum Building Footprint

All buildings on the property shall be subject to a maximum combined building footprint. The maximum combined main and accessory building footprint shall be as follows:

	Lot Size	Waterfront Lots	Back Lots
(a)	0 to 25,000 sq ft. in area	10 per cent of lot area	20 per cent of lot area
(b)	25,001 to 50,000 sq ft. in area	2,500 sq ft.	5,000 sq ft.
(c)	50,001 to 75,000 sq ft. in area	3,000 sq ft.	5,500 sq ft.
(d)	75,001 to 100,000 sq ft. in area	3,500 sq ft.	6,000 sq ft.
(e)	Larger than 100,000 sq ft. in area	4,000 sq ft.	6,500 sq ft.

9.3.4.2 Frontage on a Private Road

A development permit may be issued for residential use, recreational cabin or recreational vehicle uses on lots without frontage on a public road subject to the criteria noted below.

- (a) If the lot has the equivalent minimum lot frontage on a private road.
- (b) A residential use, recreational cabin or recreational vehicle shall be subject to the required minimum front or flankage setback measured from the extent of the right-of-way.

9.3.4.3 Recreational Cabins and Dwellings

Only one recreational cabin or dwelling shall be permitted as a use on a lot.

9.3.4.4 Recreational Vehicles

A recreational vehicle shall be permitted as a main use on a lot subject to the conditions noted below.

- (a) A development permit could be issued for a one unit dwelling and there is not a dwelling or recreational cabin already developed on the lot.
- (b) The recreational vehicle does not meet the definition of a derelict vehicle under the Act.
- (c) The location of the recreational vehicle on the lot meets the setback requirements for a dwelling in the zone.

9.3.4.5 Vegetation

Any use of a waterfront lot shall adhere to the requirements noted below.

- (a) Vegetation within the shoreline setback shall remain undisturbed.

- (b) Notwithstanding section 9.3.4.5(a) above, up to 35 per cent of the area within the required shoreline setback may be cleared to permit passage to the lakeshore and a filtered view of the lake.
- (c) The soil mantle within the required shoreline setback shall not be altered by cutting, filling, or recontouring of the natural grades or otherwise, to every extent possible.
- (d) Any steep slopes or wetlands shall be maintained in a naturally vegetated state.
- (e) Nothing in this section shall prevent the removal of dangerous or diseased vegetation.

9.3.4.6 Site Plan Approval

No development permit shall be issued for a residential use on a waterfront lot unless site plan approval is obtained. A clear and accurate site plan showing the location and size of development on the property shall be provided to the Development Officer for approval. The site plan shall accurately show the following features:

- (a) Property boundary and all shorelines
- (b) Any watercourse, steep slopes or wetland
- (c) Driveway
- (d) Main building envelope
- (e) Any accessory buildings including a boathouse
- (f) Areas that may contain lawns or landscaping
- (g) Areas to be maintained as natural vegetation
- (h) Areas within the shoreline setback that may be partially cleared of some vegetation in order to provide for a path and view of the lake, and
- (i) Key measurements showing the location of the above features on the property.

9.3.4.7 Additional Site Plan Requirements

Proposed development shown on any site plan shall conform with the requirements below.

- (a) Zone requirements contained in section 9.3.3;
- (b) Maximum building footprint requirements contained in section 9.3.4.1; and
- (c) Vegetation requirements contained in section 9.3.4.5.

9.3.4.8 Site Plan Exemptions

The following matters do not require site plan approval but all other requirements of this By-law shall be met prior to the issuance of a development permit:

- (a) Repairs, renovations and additions to buildings and structures on the lot.

- (b) The development of new accessory buildings.
- (c) The replacement of a legally existing one unit dwelling.

9.3.5 Uses Considered by Development Agreement

Pursuant to the Municipal Planning Strategy, the uses noted below may be considered by Development Agreement within the Lakeshore Residential (S1) Zone (*Amended October 1, 2024, File P21-01*):

- (a) Proposals for visitor-oriented development not permitted as-of-right in accordance with policy 2.5.13 of the Municipal Planning Strategy;
- (b) Proposals for high-impact recreation uses that are not permitted as-of-right in the Commercial Recreation (P1) Zone in accordance with policy 2.7.14 of the Municipal Planning Strategy; and
- (c) Uses considered by Development Agreement in all zones listed in section 14.7.

9.4 LAKESHORE LIMITED DEVELOPMENT (S2) ZONE

9.4.1 Zone Purpose

The purpose of the Lakeshore Limited Development (S2) Zone is to provide for low density development, including freshwater-related recreation, leisure activities, and habitation. Development is intended to occur on larger lots with larger water frontages to reduce the need to clear large areas of the lakeshore for development and to reduce the numbers of septic systems and the nutrients they release. Protection of lake water quality in the Lakeshore Limited Development (S2) Zone is a priority and where there is a conflict between residential and/or recreational uses with lake water quality, protection of lake water quality shall take priority. This section is in accordance with policy 3.5.2 (b) of the Municipal Planning Strategy.

9.4.2 Uses

9.4.2.1 Permitted Uses

The following uses shall be permitted in the Lakeshore Limited Development (S2) Zone subject to all applicable requirements of this By-law, including Section 14 – General Regulations.

9.4.4.5 Vegetation

Any use of a waterfront lot shall adhere to the requirements noted below.

- (a) Vegetation within the shoreline setback shall remain undisturbed.
- (b) Notwithstanding section 9.4.4.5(a) above, up to 35 per cent of the area within the required shoreline setback may be cleared to permit passage to the lakeshore and a filtered view of the lake.

- (c) The soil mantle within the required shoreline setback shall not be altered by cutting, filling, or recontouring of the natural grades or otherwise, to every extent possible.
- (d) Any steep slopes or wetlands shall be maintained in a naturally vegetated state.
- (e) Nothing in this section shall prevent the removal of dangerous or diseased vegetation.

9.4.4.6 Site Plan Approval

No development permit shall be issued for a residential use on a waterfront lot unless site plan approval is obtained. A clear and accurate site plan showing the location and size of development on the property shall be provided to the Development Officer for approval. The scaled site plan shall accurately show the following features:

- (a) Property boundary and all shorelines
- (b) Any watercourse, steep slopes or wetlands
- (c) Driveway
- (d) Main building envelope
- (e) Any accessory buildings including a boathouse
- (f) Areas that may contain lawns or landscaping
- (g) Areas to be maintained as natural vegetation
- (h) Areas within the shoreline setback that may be partially cleared of some vegetation in order to provide for a path and view of the lake, and

10.3 RESOURCE (N1) ZONE

10.3.1 Zone Purpose

The purpose of the Resource (N1) Zone is to maintain large tracts of uninhabited forested land for resource development, while limiting residential development to ensure there is sufficient space for large resource-based industries to locate and expand in these areas, in accordance with policy 3.6.2 (a) of the Municipal Planning Strategy. Where there is conflict between resource uses and residential uses in a Resource (N1) Zone, the resource use shall take priority.

10.3.2 Uses

10.3.2.1 Permitted Uses

The following uses shall be permitted in the Resource (N1) Zone subject to all applicable requirements of this By-law, including Section 14 – General Regulations.

10.3.3 Zone Requirements

The following requirements shall apply to all development located in the Resource (N1) Zone.

Requirement	Residential Uses, Community Facilities and Places of Worship	Livestock Operations & Abattoirs	All Other Permitted Uses
(a) Minimum Lot Area: (i) General	30,000 sq ft.	200,000 sq ft.	50,000 sq ft.
(b) Minimum Lot Frontage: (i) General (ii) Semi-detached Dwellings	100 ft. 50 ft./unit	20 ft. N/A	100 ft. N/A
(c) Minimum Front/Flankage Setback: (main and accessory buildings)	40 ft.	40 ft.	40 ft.
(d) Minimum Side Setback: (i) Main Buildings (ii) Accessory Buildings (iii) Common Wall	20 ft. 10 ft. 0 ft.	100 ft. 40 ft. N/A	40 ft. 20 ft. N/A
(e) Minimum Rear Setback: (i) Main Buildings (ii) Accessory Buildings	40 ft. 20 ft.	100 ft. 20 ft.	40 ft. 20 ft.
(f) Maximum Building Height: (i) Main Buildings (ii) Accessory Buildings	35 ft. 20 ft.	55 ft. 20 ft.	55 ft. 20 ft.

10.3.4 Additional Requirements

10.3.4.1 Farm Tenements and Bunkhouses

Farm tenements and bunkhouses shall be permitted on a farm property subject to requirements below.

- (a) The farm tenement or bunkhouse shall not be the first main farm building on the lot.
- (b) The property owner shall demonstrate that the farm tenement or bunkhouse is part of a farming business operating on the farm property where it is located.

- (c) At the time of application for a new farm tenement or bunkhouse, the gross revenue of the applicant from the farming business exceeded the income from all other sources for the preceding tax year.

10.3.4.2 Frontage on a Private Road

A development permit may be issued for a residential use on lots without frontage on a public road subject to the criteria noted below.

- (a) If the lot has the equivalent minimum lot frontage on an existing private road.
- (b) A residential use shall be subject to the required minimum front or flankage setback measured from the extent of the right-of-way. (*Amended May 10, 2022, File 21-02*)

10.3.5 Uses Considered by Development Agreement

Pursuant to the Municipal Planning Strategy, the uses noted below may be considered by Development Agreement within the Resource (N1) Zone:

- (a) Proposals for visitor-oriented development not permitted as-of-right in accordance with policy 2.5.13 of the Municipal Planning Strategy.
- (b) Proposals for high-impact recreation uses that are not permitted as-of-right in the Commercial Recreation (P1) Zone in accordance with policy 2.7.14 of the Municipal Planning Strategy.
- (c) Proposals for recreation uses that cannot meet the zone requirements of the Commercial Recreation (P1) Zone in accordance with policy 2.7.15 of the Municipal Planning Strategy.
- (d) Uses compatible with the purpose of the Resource (N1) Zone that do not otherwise meet the requirements of the zone in accordance with policy 3.6.9 of the Municipal Planning Strategy.
- (e) Uses considered by Development Agreement in all zones listed in section 14.7.

N1

10.4 AGGREGATE RELATED INDUSTRY (N2) ZONE

10.4.1 Zone Purpose

The purpose of the Aggregate Related Industry (N2) Zone is to allow for aggregate-related industries in areas where aggregate extraction is occurring under a permit granted by the Province of Nova Scotia, in accordance with policy 3.6.2 (a) of the Municipal Planning Strategy.

10.4.2 Uses

10.4.2.1 Permitted Uses

The following uses shall be permitted in the Aggregate Related Industry (N2) Zone subject to all applicable requirements of this By-law, including in Section 14 – General Regulations.

(f) Maximum Building Height:		
(i) Main Buildings	45 ft.	45 ft.
(ii) Accessory Buildings	20 ft.	20 ft.

11.3.4 Additional Requirements

11.3.4.1 Campgrounds

Campgrounds shall be subject to requirements below:

- (a) A one unit dwelling shall be permitted as an accessory use for the residence of the owner or operator of the campground.
- (b) All developments, including parking areas, camp sites, public gathering areas, loading areas, and outdoor storage shall be set back 40 feet from side and rear lot boundaries.
- (c) Recreational cabins shall have a maximum building footprint of 500 square feet.
- (d) Campgrounds that existed on the date of adoption of this By-law and that do not meet the above requirements shall be permitted provided any expansions do not further encroach on the side or rear setbacks.
- (e) All new or expansions of existing campgrounds shall maintain a natural wooded area at least 40 feet in width along all side and rear lot lines. If the 40 foot wide area is already wooded, it shall be maintained as such. If the 40 foot wide area is cleared, then trees and shrubs that would naturally spread in the area shall be grown.

11.3.4.2 Non-profit Camps

Non-profit camps shall be subject to the requirements below.

- (a) A one-unit dwelling shall be permitted as an accessory use for the residence of the owner or operator of the non-profit camp.
- (b) All developments, including main and accessory buildings, parking areas, camp sites, public gathering areas, loading areas, and outdoor storage shall be set back 40 feet from side and rear lot boundaries.
- (c) Accessory uses shall cater to overnight users of the non-profit camp lot and not the general public.
- (d) Recreational cabins shall have a maximum building footprint of 500 square feet.
- (e) All new or expansions of existing non-profit camps shall maintain a natural wooded area at least 40 feet in width along all side and rear lot lines. If the 40 foot wide area is already wooded, it shall be maintained as such. If the 40 foot wide area is cleared, then trees and shrubs that would naturally spread in the area shall be grown.

11.3.4.3 Golf Courses

Golf courses shall be subject to the requirements below:

- (a) A one-unit dwelling shall be permitted as an accessory use for the residence of the owner or operator of the golf course within the Commercial Recreation (P1) Zone. *(Amended June 19, 2023, File 21-12)*

11.3.5 Uses Considered by Development Agreement

Pursuant to the Municipal Planning Strategy, the uses noted below may be considered by Development Agreement within the Commercial Recreation (P1) Zone:

- (a) Proposals for high impact recreation uses not permitted as-of-right within the Commercial Recreation (P1) Zone in accordance with policy 2.7.14 of the Municipal Planning Strategy.
- (b) Proposals for recreation uses that cannot meet the zone requirements of the Commercial Recreation (P1) Zone in accordance with policy 2.7.15 of the Municipal Planning Strategy.
- (c) Uses considered by Development Agreement in all zones listed in section 14.7.

12.3 Summary of Uses Permitted within Environmental Constraints Zone

The following summarizes the primary uses permitted in the Environmental Constraints Zone subject to all the requirements set out in this By-law. Please see the specific zone section for an exact list of permitted uses and special conditions.

Note: The Overlays are not listed because the permitted uses are controlled by the underlying zoning or restricted within the overlay.

Use	O1
NON-RESIDENTIAL	
Agricultural Uses	O1
Fishing Uses	O1
Forestry Uses	O1
Remote-controlled Aircraft Fields - Existing	O1

12.4 ENVIRONMENTAL CONSTRAINTS (O₁) ZONE

12.4.1 Zone Purpose

The purpose of the Environmental Constraints (O1) Zone is to restrict land uses and development in areas that have been identified as having an increased risk of flooding, erosion, slope failure or other unique features that cause them to be environmentally sensitive to development pressures, in accordance with policy 2.4.1 of the Municipal Planning Strategy.

12.4.2 Uses

12.4.2.1 Permitted Uses with Special Conditions

The following uses shall be permitted in the Environmental Constraints (O1) Zone subject to all applicable requirements of this By-law, including Section 14 – General Regulations and specific additional requirements.

NON-RESIDENTIAL USES	SPECIAL CONDITIONS
Agricultural Uses	
Remote-controlled Aircraft Fields - Existing	
Fishing Uses	
Forestry Uses	

12.4.3 Zone Requirements

The following requirements shall apply to all development located in the Environmental Constraints (O1) Zone.

	Requirement	All Permitted Uses
(a)	Minimum Front/Flankage Setback: (main and accessory buildings)	40 ft.
(b)	Minimum Side Setback: (i) Main Buildings (ii) Accessory Buildings	20 ft. 10 ft.
(c)	Minimum Rear Setback: (i) Main Buildings (ii) Accessory Buildings	40 ft. 20 ft.
(d)	Maximum Building Height: (i) Main Buildings (ii) Accessory Buildings	35 ft. 20 ft.

12.4.4 Additional Requirements

12.4.4.1 Requirements for all Development

All new buildings, additions, and associated parking, shall be prohibited with the exception of those noted below. *(Amended October 1, 2024, File P21-01)*

- (a) Residential accessory buildings with a maximum building footprint of 215 square feet.
- (b) Agricultural, forestry or fishing buildings with a maximum building footprint of 600 square feet.
- (c) Open air park and recreational buildings or structures with a maximum footprint of 215 square feet.
- (d) Public utilities.
- (e) Additions to existing residential uses provided the addition does not extend beyond the building footprint in existence on the date this By-law is adopted.

12.4.4.2 Alteration of Natural Grade

There shall be no alteration or change of the natural grade with the exception of minor surface re-grading related to the cultivation of land, public park uses, or permitted development.

12.4.4.3 Engineer Review Requirements

All permitted development in the Environmental Constraint (O1) Zone shall:

- (a) be designed and constructed to address any unique environmental site conditions such as erosion and slope failure, as designed by an engineer licensed to practice in Nova Scotia; and
- (b) implement adequate flood resistant building techniques where there is an increased risk of flooding, as designed by an engineer licensed to practice in Nova Scotia.

12.4.4.4 Acknowledgement of Flood and Erosion Risks

The Environmental Constraints (O1) Zone identifies lands at risk of flooding and erosion based on the best information available to the Municipality. The Municipality does not make any representations about the accuracy of this information or provide any assurances that flooding and erosion risks will not exceed these predictions or occur in other areas. Property owners are responsible for all risks associated with development, the effectiveness of flood resistant measures, and the impacts of development on neighbouring properties.

12.5 ENVIRONMENTALLY SENSITIVE AREA (ESA) OVERLAY

12.5.1 Overlay Purpose

The Environmentally Sensitive Area (ESA) Overlay is applied to lands that were not previously located within an Environmental Constraints (O1) Zone, but were identified as flood risk areas by the 2012 Applied Geomatics Research Group mapping. This Overlay also includes generalized areas with steep slopes greater than 20 per cent around watercourses, ravines within Growth Centres and where development could contribute to erosion, sedimentation and flooding issues. This Overlay is intended to provide flexibility to recognize the pre-existing development patterns and the hardship of strict limitations on property owners. This section is in accordance with policy 2.4.5 of the Municipal Planning Strategy.

12.5.2 Application of Overlay

In addition to the underlying zone requirements, the requirements of the ESA Overlay shall apply to all development.

12.5.3 Engineer Review Requirements

In accordance with policy 2.4.6 of the Municipal Planning Strategy, all new buildings and expansions of building footprints in the ESA Overlay shall be subject to the requirements below.

- (a) New buildings and additions shall be designed and constructed to address any unique environmental site conditions such as erosion and slope failure, as designed by an engineer licensed to practice in Nova Scotia.
- (b) Implementation of adequate flood resistant techniques where there is an increased risk of flooding, as designed by an engineer licensed to practice in Nova Scotia.
- (c) Notwithstanding Clause 12.5.3(b), above, accessory buildings with a maximum building footprint of 215 square feet shall be exempt from engineer review requirements. *(Amended October 1, 2024, File P21-01)*

12.5.4 Residential Units

Notwithstanding the provisions of the underlying zone, no new residential units located entirely below grade shall be permitted in the Environmentally Sensitive Area (ESA) Overlay area identified for reasons related to flooding. *(Amended October 1, 2024, File P21-01)* For clarity, residential units located below established grade that existed on the date this By-law is adopted shall be permitted.

12.5.5 Acknowledgement of Risk

The Environmentally Sensitive Area (ESA) Overlay identifies lands at risk of flooding, erosion, slope failure or at risk due to other unique features based on the best information available to the Municipality. The Municipality does not make any representations about the accuracy of this information or provide any assurances that the risk will not exceed these predictions or occur in other areas. Property owners are responsible for all risks associated with development, including the effectiveness of flood resistant measures, and the impacts of development on neighbouring properties.

12.6 TOWN WATER SUPPLY OVERLAYS (TWS)

12.6.1 Overlay Purpose

The purpose of the Town Water Supply Overlay (TWS) is to limit development within public water supply areas and thereby protect the surface water supply from contamination, in accordance with policy 2.6.1 of the Municipal Planning Strategy.

12.6.2 Application of Overlays

All Town Water Supply Overlays are shown on the Land Use By-law Zoning Map. In addition to the underlying zone requirements, the requirements of the Overlays shall apply to all development, including accessory uses and home-based businesses, within the Town Water Supply Overlays. For clarity, all accessory uses and home-based businesses shall be permitted within the Town Water Supply Overlay unless otherwise prohibited by this By-law. *(Amended October 1, 2024, File P21-01)*

12.6.3 Permitted Uses

No development permit shall be issued on a lot subject to the Town Water Supply Overlay except one or more of the following uses and subject to the requirements of the underlying zone and the following additional requirements:

- Agricultural Uses
- Forestry Uses
- Mobile Homes
- One Unit Dwellings
- Public Utilities
- Residential Uses – Existing

In the case of conflict between the requirements of this Overlay and the underlying zone, the more restrictive requirements shall prevail.

12.6.4 Agricultural and Forestry Uses

No agricultural or forestry use which may contribute to excessive flooding, erosion, contamination or other detrimental consequences shall be permitted within 100 feet of a surface water supply or a watercourse draining into the water supply.

12.7 PORT WILLIAMS URBAN FLOODPLAIN OVERLAY (UF₁)

12.7.1 Purpose

The purpose of the Port Williams Urban Floodplain Overlay is to delineate lands located below the height of nearby dykes, in accordance with policy 4.5.6 of the Municipal Planning Strategy.

12.7.2 Requirements

In addition to the requirements of the underlying zoning, the Urban Floodplain Overlay shall require the following:

- (a) New buildings and additions shall be designed and constructed for flood resistance to a storm surge height of 28.2 feet above mean sea level, the approximate height of nearby dyke. These requirements, however are waived for the items noted below.
 - (i) Vertical additions that do not expand the building footprint.
 - (ii) Accessory structures with a maximum building footprint of 150 square feet.
 - (iii) Additions to buildings that existed on October 14, 2010. The addition, however, shall not extend beyond the property boundary that existed on October 14, 2010. The grade of the ground floor must be no lower than the ground floor of the existing building. Basements shall not be permitted.

Prior to any development taking place, regardless of the scale, the property owner shall provide written acknowledgement indicating that the development is located within an area identified as being vulnerable to the predicted worst case storm surge and sea level rise scenario of 34 feet above mean sea level, representing the estimated extent of the 1869 Saxby Gale plus an estimated sea level rise of 25 inches.

12.8 PORT WILLIAMS URBAN FLOODPLAIN WARNING (UF2) OVERLAY

12.8.1 Purpose

The purpose of the Port Williams Urban Floodplain Warning (UF2) Overlay is to delineate land having an elevation between the height of nearby dykes and the estimated level of the 1869 Saxby Gale, in accordance with policy 4.5.9 of the Municipal Planning Strategy.

12.8.2 Requirements

Prior to any development taking place, regardless of the scale, the property owner shall provide written acknowledgement indicating that the development is located within an area identified as being vulnerable to the predicted worst case storm surge and sea level rise scenario of 34 feet above mean sea level, representing the estimated extent of the 1869 Saxby Gale plus an estimated sea level rise of 25 inches.

Section 13 - WELLFIELD PROTECTION OVERLAYS

13.1 Summary of Wellfield Protection Overlay Names and Symbols

Overlay Name	Symbols
Aylesford Wellfield Protection Overlay	AW
Berwick Wellfield Protection Overlay	BW
Canning Wellfield Protection Overlays	CW – A, B, & C
Greenwood Wellfield Protection Overlays	GW – A, B, C, & D
Kentville Wellfield Protection Overlays	KW – A, B, C, & D
New Minas Wellfield Protection Overlays	NW – A, B, C, & D
Port Williams Wellfield Protection Overlays	PW – A, B, & C
Wolfville Wellfield Protection Overlays	WW – WZ, A, B, & C¹

1. (Amended April 17, 2026, file P23-01)

13.2 Requirements for all Wellfield Overlays

13.2.1 Application of Overlays

All Wellfield Protection Overlays are shown on the Land Use By-law Zoning Maps. In addition to the underlying zone requirements, the requirements of the Wellfield Protection Overlays shall apply to all development, including accessory uses and home-based businesses. In the case of conflict between the zone requirements and the Wellfield Protection Overlay requirements, the more restrictive requirements shall prevail.

13.2.2 Non-Conforming Uses within Wellfields

- (a) Uses that legally existed prior to the adoption of wellfield provisions but are now prohibited by the wellfield regulations shall be considered non-conforming uses and shall be subject to the requirements of section 14.3.8 of this By-law.
- (b) Notwithstanding section 13.2.2 (a) above and section 14.3.8, the expansion or redevelopment of a non-conforming use within any wellfield protection overlay, or a change in use to a less impactful use shall be permitted by development agreement, subject to the requirements of policies 2.6.8 and 2.6.16 of the Municipal Planning Strategy.

13.2.3 Bulk Storage

- (a) Limits on bulk storage volumes or weight shall apply to the total weight or volume of that category of material on one lot. For example, a lot containing a 500 litre container of diesel and a 500 litre container of gasoline is considered to contain 1,000 litres of bulk petroleum fuel and would not be permitted in Kentville Wellfield Protection Overlay B (maximum 909 litres).

- (b) Where a lot straddles the boundary between multiple wellfields or a wellfield and a non-wellfield, the area of land within each wellfield shall be considered an individual lot for the purposes of determining the maximum permitted volume or weight of bulk storage. For example, if a lot is bisected by Port Williams Wellfield Protection Overlays B and C, the lot could contain 1,000 kilograms of salt on the area within Overlay B and a further 100,000 kilograms of salt on the area within Overlay C.

13.3 AYLESFORD WELLFIELD PROTECTION OVERLAY

13.3.1 Aylesford Wellfield Protection Overlay

In accordance with policy 2.6.7 of the Municipal Planning Strategy, properties within the Aylesford Wellfield Protection Overlay shall not be permitted to rezone to an Industrial Zone.

13.4 BERWICK WELLFIELD PROTECTION OVERLAY

13.4.1 Berwick Wellfield Protection Overlay

Notwithstanding any other provisions contained in this By-law, the following uses shall be prohibited from locating within the Berwick Wellfield Protection Overlay:

- Automotive Repair subject to the requirements of section 13.4.2
- Automotive Salvage Yards
- Bulk Storage of Petroleum Fuel, excluding Gasoline or Service Stations
- Bulk Storage of Salt
- Bulk Storage, Processing, or Production of Fertilizer
- Commercial Storage of Petroleum Solvents
- Dry Cleaning Facilities
- Gas Bars subject to the requirements of section 13.4.2

13.4.2 Uses Considered by Development Agreement

Notwithstanding any other provisions contained in this By-law, where permitted by the underlying zoning, the following uses shall only be permitted in the Berwick Wellfield Protection Overlay by development agreement, subject to policies 2.6.9 and 2.6.16 of the Municipal Planning Strategy:

- All permitted uses within the Rural Industrial (M3) Zone
- Automotive Repair
- Gas Bars

13.5 CANNING WELLFIELD PROTECTION OVERLAYS

13.5.1 Canning Wellfield Protection Overlay A

Notwithstanding any other provisions contained in this By-law a development permit shall not be issued within the Canning Wellfield Protection Overlay A except for one or more of the following uses:

- One Unit Dwelling
- Public Water Utilities

13.5.2 Canning Wellfield Protection Overlays B & C

Notwithstanding any other provisions contained in this By-law, the following restrictions shall apply to development of lands located within the Canning Wellfield Protection Overlays B and C.

Part 3 DEVELOPMENT REGULATIONS

Section 14 GENERAL REGULATIONS

Section 15 ALTERNATIVE ENERGY
GENERATION REGULATIONS

Section 14 - GENERAL REGULATIONS

14.1 WATERCOURSE PROTECTION

- (a) All permitted structures in all zones shall have a separation distance of at least 50 feet from the edge of the bank of any watercourse, in accordance with policies 2.4.8 and 2.4.9 of the Municipal Planning Strategy. *(Amended October 1, 2024, File P21-01)*
- (b) Notwithstanding clause (a) above, the watercourse separation distance shall be reduced to 30 feet along the north side of the Cornwallis River between Terry's Creek and the Port Williams Sewer Lagoon Road and south of Kars Street and Belcher Street.
- (c) Notwithstanding clause (a) above, livestock operation buildings or manure storage facilities shall have a separation distance of at least 100 feet from the edge of the bank of any watercourse.
- (d) Clauses (a), (b) and (c), above, shall not apply to an approved public drainage system.
- (e) Lands covered by watercourses shall be subject to the requirements of the Environmental Constraints (O1) Zone.
- (f) Clauses (a) and (b) above shall not apply to accessory commercial patio areas. *(Amended November 4, 2025, File 25-01)*

14.2 LOT AND DEVELOPMENT STANDARDS

14.2.1 Driveway Access

Vehicular access from a public road shall be provided through driveway access approved by the appropriate road authority in accordance with policies 3.0.6 and 3.0.7 of the Municipal Planning Strategy. Unless otherwise required by the road authority, the following requirements shall be met:

- (a) Driveway access to any building or use located in a Commercial Zone, Industrial Zone, or a Commercial Recreation Zone shall not be through any Residential Zone.
- (aa) Outside Growth Centres, driveway access through multiple zones shall only be permitted if the use is a listed permitted use in all zones applied to the property. *(Added October 1, 2024, File P21-01)*
- (b) A driveway access permit is required from the applicable road authority when there is a change of use on the property or the development of any additional main buildings.
- (c) A maximum of two (2) accesses to any lot from any public road shall be permitted.
- (d) A minimum 50 foot separation distance consisting of a curb, barrier, or ditch designed to prevent vehicular access shall be maintained between accesses.
- (e) Accesses are limited to a maximum width of 36 feet unless it is demonstrated that a wider access is required to address concerns related to safety.

14.2.2 Frontage on a Road

Except where otherwise permitted in a zone, a development permit shall only be issued if the lot intended for development has frontage on a public road. Notwithstanding the foregoing, a development permit may be issued for buildings or structures associated with an agricultural, forestry use or fishing use, including a livestock operation, that are located on an existing lot that does not have frontage on a public road provided such use does not include a residential use.

14.2.3 Height Restrictions

The maximum height of buildings or structures as provided in a particular zone in this By-law is in accordance with policy 3.0.8 of the Municipal Planning Strategy and shall not apply to structures or building elements such as church spires, water tanks, elevator enclosures, silos, flagpoles, television or radio antennae, ventilators, skylights, chimneys, or clock towers, unless otherwise indicated.

14.2.4 Fences

- (a) Within all zones, fences up to a maximum of six (6) feet in height shall be permitted to be erected and a development permit shall not be required.
- (b) Where any Industrial Zone abuts any Residential Zone an opaque fence that is a minimum of six (6) feet in height shall be maintained between any use and the lot line that abuts any Residential Zone. This fencing requirement may be waived if existing vegetation provides a visual screen that is similar to or more effective than an opaque fence.

- (c) Notwithstanding subsection (a), within all Commercial zones, Industrial zones, Institutional zones, Agricultural zones and Resource zones, fences up to a maximum of 15 feet in height shall be permitted to be erected provided the fence is accessory to a permitted non-residential use and a development permit shall not be required.
- (d) The height of a fence shall be measured from the established grade to the top of the highest point, excluding any support posts.

14.2.5 Existing Undersized Lots

- (a) Any lot in existence prior to May 5, 1992, or any lot that has received Municipal subdivision approval between May 5, 1992 and the date of the adoption of this By-law, that has less than the minimum frontage or area or both required by this By-law, may be used for a purpose permitted in the zone in which the lot is located and a development permit may be issued provided all other applicable provisions in this By-law are met.
- (b) Subsection (a) shall not apply to lots in the Agricultural (A1) Zone developed for the purposes of a non-farm dwelling unless the separation distance requirements related to residential development of section 8.3.4.1 are met.
- (c) In addition to (a), above, where such lots are increased in size but remain undersized, they continue to be deemed existing undersized lots.

14.2.6 Newly Created Undersized Lots

Where a lot is approved under section 279 of the Act, a development permit shall be issued provided the development complies with all other provisions of this By-law, and is in accordance with policy 3.0.18 of the Municipal Planning Strategy.

14.2.7 Permitted Encroachments

Unless otherwise indicated in a particular zone and in accordance with policy 3.0.15 of the Municipal Planning Strategy, every part of any setback required by this By-law shall be open and unobstructed by any structure (*Amended October 1, 2024, File P21-01*), with the exception of the items noted below.

- (a) The usual projections of sills, cornices, eaves, gutters, chimney breasts, pilasters, canopies, steps or other architectural features provided that no such structure or feature projects more than two (2) feet into a required setback.
- (b) Window bays that project not more than three (3) feet into a required front, rear or flankage setback.
- (c) Uncovered patios to a maximum of two (2) feet six (6) inches from into any required setback. (*Amended October 1, 2024, File P21-01*)
- (d) Fire escapes, exterior staircases, and ramps on existing buildings that provide access to a building to a maximum of:
 - (i) two (2) feet six (6) inches from any side lot line; or

- (ii) 16.5 feet from any front, flankage and rear lot line.
- (e) Mechanical or utility features, such as, but not limited to, air conditioners, oil and gas tanks, electrical boxes, and building mounted solar panels, which project not more than two (2) feet from the main wall into any required setback.

14.2.8 Sewer Services within Growth Centres

All new developments that are located within Growth Centres shall be serviced by central sewer services where practical, as determined by the Public Utility.

14.2.9 Setbacks from Slopes

Where, in this By-law, a front, side or rear setback is required and part of the area of the lot is between the top and bottom of a cliff or embankment (meaning the area where the angle of slope drops more than one vertical foot for every 2 feet in horizontal distance), then the required setback shall be measured from the nearest applicable point of the building on the lot to the top of the cliff or embankment; and confirmed as necessary by a surveyor licensed to practice in Nova Scotia. For clarity, this requirement shall not apply where the Environmentally Sensitive Area (ESA) Overlay applies.

14.2.10 Parking of Commercial Vehicles

Notwithstanding section 14.4 related to home-based businesses, commercial vehicles may be parked overnight in all Residential Zones in a Growth Centre on a residential or vacant lot subject to the conditions noted below and no development permit shall be required:

- (a) Not more than one commercial vehicle shall be parked overnight per lot.
- (b) The commercial vehicle shall be personally used by a tenant, resident, or owner of the lot.
- (c) The commercial vehicle shall not include an operating refrigeration unit.
- (d) The commercial vehicle shall not be loaded with hazardous goods.

These restrictions shall not apply to other zones.

14.3 USES

14.3.1 Multiple Main Uses

Unless otherwise indicated, multiple main uses may locate in the same building and where any land or building is used for more than one use, all provisions of this By-law relating to each use shall be satisfied and if more than one standard applies, the more stringent standard shall prevail.

14.3.2 Multiple Main Buildings

Except on a lot located in a Residential One Unit (R1) Zone, the Lakeshore Residential (S1), Lakeshore Limited development (S2) and Tidal Shoreland (T1) Zone, any number of main buildings may locate on the same lot, subject to any other applicable zone requirements. *(Amended October 3, 2023, File 22-04)*

14.3.3 One Dwelling Per Lot

No more than one dwelling shall be permitted on a lot, except in the Residential One Unit (R1) Zone, the Residential One and Two Unit (R2) Zone, the Residential Mixed Density (R3) Zone, the Residential Multi-unit (R4) Zone and the Mixed Commercial Residential (C3) Zone and the Country Residential (A4) Zone. *(Amended February 6, 2024, File 22-02; Amended April 17, 2026, File P23-01)*

14.3.4 Accessory Uses

Where this By-law provides that any land may be used, or that a building or structure may be erected or used for a purpose, the purpose shall be deemed to include any use accessory or ancillary to the permitted main use, subject to the requirements of that zone.

14.3.5 Accessory Buildings

Accessory buildings shall be permitted in any zone and shall not:

- (a) be used for human habitation except where a dwelling is a permitted accessory use; or
- (b) be on a separate lot from a main building.

14.3.5A Accessory Dwellings

One accessory dwelling shall be permitted per lot in all Residential Zones and the Mixed Commercial Residential (C3) Zone. Accessory dwellings shall be subject to the zone requirements for accessory buildings, including height, unless the entrance to the accessory dwelling is located in the side or rear yard in which case a 10 foot setback shall be maintained between the lot line and the building wall containing the entrance. The Accessory Dwelling shall be required to have one dedicated parking space on the lot. *(Amended February 6, 2024, File P22-02)*

14.3.6 Agricultural, Forestry and Fishing Uses Not Requiring a Permit

If permitted in the zone in which the lot is located, agricultural, forestry, and fishing uses may occur without a development permit, but any building associated with the use shall require a development permit.

14.3.7 Structures Not Requiring a Development Permit

A development permit shall not be required for miscellaneous structures, such as flag poles, children's play structures, cold frames and garden trellises, clothes line poles, dog houses, and accessory wind turbines.

14.3.8 Non-conforming Uses

Buildings or uses of land lawfully in existence on the date of adoption of this By-law and that do not conform to the requirements of this By-law are considered non-conforming under section 238 of the Act and may continue to exist subject to the provisions of the Act (sections 239-241) or applicable policies of the Municipal Planning Strategy. Non-conforming uses that have been discontinued for a period that does not exceed 12 months shall be permitted to be recommenced.

Non-conforming residential uses shall:

- (a) not be permitted to be replaced within the Environmental Constraints (O1) Zone;
- (b) not be permitted to be replaced within the General Commercial (C1), Central Business (C2), Highway Commercial (C5), Light Industrial Commercial (M1), or Heavy Industrial (M2) Zones;
- (c) be permitted to be replaced with the same use in substantially the same location in all other zones, notwithstanding (a) and (b) above (*Amended October 1, 2024, File P21-01*);
- (d) be permitted to expand up to 25 per cent of the existing main building footprint provided setback requirements of the zone are met unless otherwise indicated in this By-law; and
- (e) be permitted to construct an accessory building or buildings up to a maximum combined building footprint of 600 square feet unless otherwise indicated in this By-law. (*Amended October 1, 2024, File P21-01*)

14.3.9 Non-conforming Structures

A structure lawfully in existence on the date of adoption of this By-law that does not meet the requirements of the zone in which it is located, the structure is considered a non-conforming structure under section 238 of the Act.

Non-conforming structures shall be subject to the requirements below.

- (a) Non-conforming structures shall be permitted to expand provided the expansion to the building or structure does not further reduce the setback that does not conform to zone requirements.
- (b) Non-conforming structures containing main residential uses shall be permitted to be rebuilt or replaced in substantially the same location and be occupied by the same use.
- (c) Non-conforming accessory structures shall not be permitted to be rebuilt or replaced unless the requirements of the zone for accessory buildings are met.

- (d) A change in use from one permitted use in the zone to another permitted use in the zone shall be permitted within a non-conforming structure provided the proposed use requires the same, or less restrictive setback requirements as the original use.

14.3.10 Pit Privies

Pit privies shall be developed in accordance with all Nova Scotia Environment, or successor body, regulations related to pit privies, including regulations related to separation distances from watercourses.

14.3.11 Temporary Construction Uses

The use of land for the temporary location of a building or structure, or for other purposes that are incidental to a main construction project, shall be permitted to continue for up to 60 calendar days following completion of the main construction project. No development permit shall be required.

14.3.12 Temporary Commercial Uses

No development permit shall be required for special events such as weddings, concerts, midways, circuses, fairs or festivals subject to the requirements below.

- (a) No more than one event takes place on the same lot in a calendar year.
- (b) The special event shall remain in place for no longer than 14 consecutive days.
- (c) Any temporary building or structure erected for the event shall be taken down within seven calendar days of the completion of the event.

This subsection shall not apply to open air farmers' markets and open air markets operated by non-profit or not-for-profit organizations. No development permit shall be required.

14.3.13 Parks

Parks shall be permitted in all zones and shall not be required to meet the zone requirements. Parks shall be subject to the requirements below.

- (a) Parks shall not require a development permit; however, any building associated with the use shall require a development permit.
- (b) Any accessory building shall be located a minimum of ten (10) feet from all lot lines and shall have a maximum height of 20 feet.

14.3.14 Swimming Pools

A swimming pool is permitted as an accessory structure to a permitted main use. A development permit is required for an in-ground swimming pool and is subject to the zone requirements for an accessory building. Above ground swimming pools shall not require a development permit and are not subject to the zone requirements provided they are wholly contained on the property. Any associated decking or other structures shall require a development permit and shall be subject to the zone requirements for an accessory building. *(Amended October 1, 2024, File P21-01)*

14.3.15 Cemeteries

- (a) Existing cemeteries shall be permitted in all zones.
- (b) New cemeteries shall be permitted in all zones excluding the Agricultural (A1) Zone, Environmental Constraint (O1) Zone or lands subject to the Environmentally Sensitive Area Overlay (ESA) and are subject to any applicable Wellfield Protection Overlays.
- (c) Any new cemeteries are not required to meet the lot size and frontage requirements of the zone in which they are located, but shall have a minimum of 20 feet of public road frontage.
- (d) Any accessory building or structure having a building footprint less than 215 square feet shall be located a minimum of ten (10) feet from any lot line.
- (e) Any building or structure having a building footprint greater than 215 square feet shall be considered a main building and shall be subject to the requirements of the zone in it is located.
- (f) Cemeteries are regulated in accordance with policies 3.0.12 and 3.0.13 of the Municipal Planning Strategy.

14.3.16 Transit Shelters

Transit shelters shall be permitted in all zones and shall be exempt from zone requirements. Development permits shall be required and shall only be issued in accordance with the conditions noted below.

- (a) The applicant has the written consent of the transit authority on whose regularly scheduled stop the transit shelter is to be located.
- (b) The applicant has the written consent of the property owner of the land upon which the transit shelter is to be located.
- (c) The applicant has the written consent of the road authority.
- (d) Any associated signs are in compliance with section 14.6 of this By-law.

14.3.17 Gas Bars

Where permitted, gas bars shall be subject to the following requirements noted below.

- (a) Pump islands shall be located a minimum of 20 feet from any lot line.
- (b) All portions of the gas bar canopy shall meet minimum main building side and rear setback requirements, including both the vertical supports and the canopy itself.
- (c) Vertical supports for the gas bar canopy shall meet minimum front setback requirements. The gas bar canopy may, however, extend to the front lot line subject to the approval of the road authority.

14.3.18 Drive-through Facilities

Drive-through restaurants and accessory drive-through facilities shall be subject to the following requirements noted below.

- (a) Drive-through facilities shall be permitted as an accessory use to any permitted use within any Commercial Zone except within the Central Business (C2) Zone or the Mixed Commercial Residential (C3) Zone.
- (b) Where drive-through restaurants or accessory drive-through facilities abut a Residential Zone, an opaque fence having a minimum height of six (6) feet shall be erected at a grade similar to the grade of the drive aisle for the drive-through facility.

14.3.18A Accessory Commercial Patio Areas

Accessory commercial patio areas shall be permitted as part of a commercial use in the General Commercial (C1) Zone, Central Business (C2) Zone, Mixed Commercial Residential (C3) Zone, Rural Commercial (C4) Zone, Highway Commercial (C5) Zone, Farm Commercial (A3) Zone, Tidal Commercial (T2) Zone, Commercial Recreation (P1) Zone, and Institutional (I1) Zone. A development permit is required for any accessory commercial patio and shall be subject to the following conditions noted below.

- (a) Accessory commercial patio areas shall be subject to the front and flankage setback requirements for a main building in the underlying zone.
- (b) Accessory commercial patio areas shall be subject to the side and rear setback requirements for a main building in the underlying zone or 10 feet, whichever is less.
- (c) The accessory commercial patio area shall not be located in a required parking area. *(Added November 4, 2025, File 25-01)*

14.3.19 Urban Chickens

Within Growth Centres, urban chickens shall be permitted in the Residential One Unit (R1) Zone, Residential One and Two Unit (R2) Zone, Residential Mixed Density (R3) Zone, Residential Multi-Unit (R4) Zone, Comprehensive Neighbourhood Development (R5) Zone, and the Mixed Commercial Residential (C3) Zone and shall be subject to the conditions noted below.

- (a) A maximum of five urban chickens shall be permitted on a lot.
- (b) No development permit shall be required for urban chickens.
- (c) The use shall be accessory to either a one unit or two unit dwelling and shall be located on and contained within the same lot.
- (d) The sale of eggs or meat is prohibited.
- (d) Slaughtering of urban chickens shall be prohibited on the lot.
- (f) Urban chicken coops shall be subject to the requirements noted below.

- i. One urban chicken coop shall be permitted on a lot except where otherwise permitted.
 - ii. An urban chicken coop shall be subject to the setback requirements for residential accessory buildings.
 - iii. An urban chicken coop shall not be located in the front or flankage yard.
- (g) For urban chicken roosters, the additional requirements noted below shall be met.
- i. The minimum lot size shall be at least 3 acres.
 - ii. The urban chicken coop used for urban chicken rooster(s) shall have a separation distance of 50 feet from any lot line.
 - iii. Two chicken coops shall be permitted on the lot.

14.3.20 Household Livestock

Household livestock shall be permitted in all zones located outside of a Growth Centre excluding the Shoreland Residential (S1) Zone and shall be subject to the following requirements noted below.

- (a) The use shall be accessory to a residential use.
- (b) The number of permitted animal units shall be determined on the basis of lot area, as per below.
 - i. On lots having a lot area of one (1) acre or less, one (1) animal unit shall be permitted.
 - ii. An additional animal unit shall be permitted on each additional full acre. For clarity, for the purpose of determining the number of permitted animal units, each part of an acre of lot area shall be rounded down to nearest whole acre.
 - iii. Within the Country Residential (A4) Zone, the minimum required lot area for household livestock shall be 30,000 square feet. On lots having less than 30,000 square feet of lot area, a total of five (5) chickens shall be permitted subject to the requirements for urban chickens contained within this section.
- (c) New buildings used for household livestock shall meet the lot requirements noted below.
 - i. Buildings for one (1) animal unit shall be subject to the setback requirements for a residential accessory building within the zone in which the lot is located.
 - ii. Buildings for more than one (1) animal unit shall be subject to the setback requirements for an agricultural use within the zone in which the lot is located.

14.3.21 Livestock Operations

Where permitted, livestock operations shall meet the requirements noted below.

- (a) New buildings or additions housing livestock, including manure storage facilities, shall have a separation distance of at least 500 feet from all Growth Centre boundaries. *(Amended October 1, 2024, File P21-01)*

- (b) Livestock operations not meeting the separation distance specified in (a) above shall be conforming provided they were in existence prior to the date of adoption of this By-law. Such operations shall be permitted to expand or rebuild and shall be subject to the requirements below.
 - (i) Expansions may include additions and new building construction.
 - (ii) In no case shall the livestock operation expansion encroach more than 20 per cent of the existing distance between the nearest wall of the livestock operation and the affected Growth Centre. *(Amended October 1, 2024, File P21-01)*
- (c) Property owners are responsible for all risks and impacts associated with the storage of manure. *(Amended October 1, 2024, File P21-01)*
- (d) Buildings housing a livestock operation that are non-conforming pursuant to Section 238 of the Act, may be rebuilt, replaced or repaired, if destroyed or damaged by fire or otherwise, if it is substantially the same as it was before the destruction or damage and it is occupied by the same use and an application is made for a development permit within 12 months of the building containing the livestock operation being destroyed.

14.3.22 Agritainment Uses

Where permitted, agritainment uses shall meet the requirements noted below.

- (a) The agritainment use shall be accessory to a farming business.
- (b) Indoor space dedicated to the agritainment use shall be limited to a maximum commercial floor area of 2,000 square feet.
- (c) An area, or areas, sufficient to accommodate 100 per cent of the parking demand for the agritainment use shall be located on the lot.
- (d) Notwithstanding other provisions of this By-law, the parking areas for the agritainment use do not need to be maintained with a stable surface.

14.3.23 Farm and Vineyard Product Sampling

Where permitted, farm and vineyard product sampling shall meet the requirements noted below.

- (a) The use shall be accessory to a farming business.
- (b) The lot containing the use has a minimum lot area of 5 acres.
- (c) The indoor and outdoor space dedicated to the farm and vineyard product sampling shall be limited to a maximum commercial floor area of 2,000 square feet.
- (d) Accessory retail uses shall be permitted provided the items for sale are related to or complimentary to the sampled farm product. *(Amended November 4, 2025, File 25-01)*

14.3.24 Accessory Restaurant

An accessory restaurant shall be permitted by site plan approval in accordance with the following criteria noted below.

- (a) The restaurant shall be accessory to either an agritainment use, farm and vineyard product sampling or farm market outlet. *(Amended October 1, 2024, File P21-01)*
- (b) The indoor and outdoor commercial areas associated with the accessory restaurant shall not exceed 1,000 square feet.
- (c) The site plan shall indicate the accurate location of all areas associated with the accessory restaurant including, but not limited to, seating and parking areas.
- (d) All areas associated with the accessory restaurant, including outdoor areas, shall meet the setback requirements of the zone for an accessory building.
- (e) If proposed within a new building or structure, the accessory restaurant is encouraged to locate as close as possible to the minimum front yard setback for an agricultural use, unless restricted by topography or it is shown that the impact on agricultural lands is greater than if the accessory restaurant use was located elsewhere. An exception shall be granted if the proposal is to operate within an existing building or structure.
- (f) All areas associated with the accessory restaurant shall maintain a separation distance of 300 feet from an existing dwelling. This shall not apply if the dwelling is located on the same property as the agritainment use, the farm and vineyard sampling or farm market outlet.
- (g) All areas associated with the accessory restaurant such as outdoor seating areas, parking areas or any building or structure shall be adequately screened between the use and any adjacent existing dwellings including, but not limited to, the provision of a fence or sufficient vegetation to screen the accessory restaurant.

14.3.25 Tourist Commercial Use

Where permitted, tourist commercial uses shall be permitted as an accessory use to a dwelling and shall be subject to the following requirements:

- (a) Tourist commercial uses shall be permitted on lots having the following:
 - (i) a minimum lot area of 100,000 square feet; and
 - (ii) a minimum of 200 feet of public road frontage.
- (b) Tourist commercial uses may consist of up to two (2) cabins each having a maximum building footprint of 500 square feet.
- (c) Tourist commercial uses shall have a minimum separation distance of 50 feet from any lot line.

- (d) Tourist commercial uses shall have a minimum separation distance of 250 feet from any dwelling on an adjacent lot.
- (e) If tourist commercial uses are located within 400 feet of a dwelling on a neighbouring lot, a vegetative buffer having a minimum width of 20 feet shall be provided between the tourist commercial uses and the neighbouring dwelling.
- (f) Tourist commercial uses shall have a maximum height of 20 feet.
- (g) An on-site caretaker shall reside on the same lot.

14.3.26 Small-Scale Antenna Systems

Small-scale antenna systems having a height no greater than 40 feet, shall be permitted within all zones located outside of a Growth Centre and shall be subject to the requirements noted below.

- (a) Small-scale antenna systems shall be permitted as accessory uses to a, permitted use in the zone in which the property is located.
- (b) Small-scale antenna systems may consist of more than one (1) antenna tower.
- (c) The subject property shall not be located within the boundaries of the Community Plan for Grand Pré or on a registered historic site recognized under municipal, provincial or federal law.
- (d) Antenna towers shall be located a minimum distance equivalent to two (2) times the height of the antenna tower to dwellings on neighbouring properties.
- (e) Antenna towers shall be located a minimum distance equivalent to one (1) times the height of the antenna tower to all lot lines.
- (f) Small-scale antenna systems used for emergency services shall be exempt from the regulations of this section.

14.3.27 Telecommunication Facilities

Telecommunications facilities requiring approval from the federal government shall not require a development permit but are subject to public consultation requirements in accordance with policy 2.3.30 of the Municipal Planning Strategy. All other telecommunications facilities shall be subject to the requirements of section 14.3.26.

14.3.28 Animal Boarding Facilities, Veterinary Clinics and Domestic Animal Grooming

Outdoor runs for any animals, whether or not it is attached to a main building, shall be fenced and shall not be located any closer than ten (10) feet to any lot line.

14.3.29 Uses Within Residential Units

The use of residential units as a residential care home, a bed and breakfast operation or as accommodations shall be permitted within all zones that permit residential units. Bed and breakfast

operations shall be permitted to use up to four (4) bedrooms unless located within the Grand Pré Heritage Conservation District where the use of five (5) bedrooms is permitted. These uses shall be subject to the requirements of the zone. Any associated signs shall be subject to the requirements of a home-based business sign. *(Amended October 1, 2024, File P21-01 and February 4, 2025, File 24-14)*

14.3.30 Direct Sale of Products from the Land and Sea

No development permit shall be required for the direct sale of fish and other seafood by fishers or companies engaged in the catching and sale of fish or other seafood, as well as the direct sale of products of the farm or forest including, but not limited to, flowers, plants, vegetables, fruit, and Christmas trees and wreaths. Any associated buildings or structures shall be limited to open air buildings or structures with a maximum footprint of 100 square feet. Such buildings or structures shall meet the minimum side and rear setbacks for accessory buildings in the underlying zoning, but shall not be required to meet minimum front setbacks subject to the approval of the road authority.

14.3.31 Requirements for all Wind Turbines

All wind turbines shall be subject to the requirements below.

- (a) Climbing apparatuses shall be secured to a minimum height of ten (10) feet above grade to prevent unintended climbing or be contained within the tower structure and secured by means of a lockable door.
- (b) All wind turbines shall be painted or finished in a matte, non-reflective finish.
- (c) No lighting shall be permitted on any wind turbine except as required by relevant transportation authorities.
- (d) Signs and advertising shall not be permitted on any wind turbines, with the exception of paint or decals indicating the manufacturer of the wind turbine.
- (e) With the exception of accessory wind turbines, development permit applications for all wind turbines, in addition to standard required information, shall be accompanied by documentation listed below.
 - (i) Manufacturer's information, including the type of wind turbine, total height, rotor diameter, maximum rated output capacity, colour, and Canadian Standards Association (or equivalent).
 - (ii) Authorization documents from Transport Canada and NavCan, or successor bodies.
 - (iii) Tower and base designs certified by an engineer licensed to practice in Nova Scotia, and applicable letters of undertaking.
- (f) Nothing in this By-law shall exempt wind turbines from meeting relevant federal or provincial regulations.
- (g) With the exception of accessory wind turbines, all setbacks shall be measured from the portion of the wind turbine tower located at grade that provides the shortest separation distance or

setback. For greater clarity, for the purposes of this clause any foundation material is not considered to be part of the wind turbine tower.

- (h) The wind turbine definitions outlined in each wind turbine subsection are included for convenience only. If these definitions conflict with section 17 – Definitions, the text of section 17 shall prevail.

14.3.32 Accessory Wind Turbines

In accordance with policies 2.8.3 and 2.8.4 of the Municipal Planning Strategy, accessory wind turbines shall be subject to the conditions noted below.

- (a) Accessory wind turbine means a wind turbine with a height less than or equal to 25 feet.
- (b) Accessory wind turbines shall meet the applicable requirements for all wind turbines set out in section 14.3.31.
- (c) Accessory wind turbines shall be permitted as an accessory use in all zones provided the primary purpose of the wind turbine is for use on the same lot and shall not require a development permit.
- (d) Accessory wind turbines shall be permitted on lots that do not contain a main building.
- (e) Accessory wind turbines attached to a building shall be set back a distance equivalent to twice the length of the rotor blade from the required side setback for an accessory building.
- (f) Accessory wind turbines that are freestanding shall be set back a distance equivalent to 1.5 times the height of the accessory wind turbine from all lot lines.
- (g) Accessory wind turbine rotor blade clearance shall be at least ten (10) feet from grade.

14.3.33 Small-scale Wind Turbines

In accordance with policies 2.8.5 and 2.8.6 of the Municipal Planning Strategy, small-scale wind turbines shall be subject to the conditions noted below.

- (a) Small-scale wind turbine means a wind turbine with a height greater than 25 feet but less than or equal to 115 feet.
- (b) Small-scale wind turbines shall meet the requirements for all wind turbines set out in section 14.3.31.
- (c) Small-scale wind turbines shall be permitted as an accessory use in all zones outside of a Growth Centre provided the primary purpose of the wind turbine is for use on the same lot.
- (d) Small-scale wind turbines shall be permitted on lots that do not contain a main building.
- (e) Small-scale wind turbines shall be set back a distance equal to the height of the turbine from lot lines and public rights-of-way.

- (f) The distance from lot lines may be reduced by 50 per cent from lot lines bordering or located in the Environmental Constraints (O1) Zone. For greater clarity, the setback reduction only applies to the lot line bordering or located in an Environmental Constraints (O1) Zone, and not to other lot lines on the property.
- (g) Small-scale wind turbine rotor blade clearance shall be at least 15 feet from grade.
- (h) Small-scale wind turbines shall have a separation distance of at least 1.5 times the height of the wind turbine from dwellings on neighbouring lots existing at the time of application.
- (i) The location of any small-scale wind turbine shall be confirmed by a location certificate prepared by a surveyor licensed to practice in Nova Scotia.
- (j) Multiple small-scale wind turbines may be located on one lot.
- (k) Small-scale wind turbines shall have a separation distance between wind turbines equal to at least the height of the tallest wind turbine.
- (l) The property owner shall remove small-scale wind turbines from the lot following one calendar year of inactivity. A new development permit application shall be submitted and approved before a new wind turbine is installed.

14.3.34 Meteorological Towers

Meteorological towers shall be permitted in all zones and subject to the conditions noted below.

- (a) The maximum height of meteorological towers shall be equal to the maximum height of the largest wind turbine permitted in that zone. *(Amended October 1, 2024, File P21-01)*
- (b) Meteorological towers greater than 20 feet in height shall not be mounted on or attached to any other structure.
- (c) Meteorological towers shall be set back a distance equal to the height of the tower from lot lines and public rights-of-way. This minimum setback may be reduced by 50 per cent from lot lines bordering, or located in, the Agricultural (A1) Zone, Agricultural Mixed Use (A2) Zone, Resource (N1) Zone, or the Environmental Constraint (O1) Zone provided that the tower is at least a distance equal to the tower height from all buildings on the neighbouring lots.
- (d) Lighting shall not be permitted on any meteorological towers except as required by transportation authorities.
- (e) Climbing apparatuses shall be a minimum of ten (10) feet above grade, be secured to a height of ten (10) feet above grade so as to effectively prevent unintended climbing, or be contained within the tower structure and secured by means of a lockable door.
- (f) All meteorological towers shall be painted or finished in a matte, non-reflective finish.
- (g) Signs and advertising shall not be permitted on any meteorological tower with the exception of paint or decals indicating the manufacturer of the meteorological tower.

- (h) Development permit applications for all meteorological towers shall, in addition to standard required information, be accompanied by the following documentation:
 - (i) Authorization documents from Transport Canada and NavCan, or successor bodies.
 - (ii) Tower and base designs certified by an engineer licensed to practice in Nova Scotia, and applicable letters of undertaking.

14.3.35 On-building Solar Collector Systems

- (a) On-building solar collector systems shall be permitted in all zones with no limit on the solar collector area, in accordance with policies 2.8.9 and 2.8.10 of the Municipal Planning Strategy.
- (b) On-building solar collector systems may exceed:
 - (i) on a pitched roof, the greater of the maximum building height plus six (6) feet up to the highest point of the roof surface; or
 - (ii) on a flat roof, 6 feet from the highest point.

14.3.36 Small-scale Solar Collector Systems

- (a) Small-scale solar collector systems shall be permitted as an accessory use in all zones subject to setback requirements for accessory buildings and shall require a development permit, in accordance with policies 2.8.11, 2.8.12 and 2.8.14 of the Municipal Planning Strategy.
- (b) Small-scale solar collector systems shall be permitted on lots that do not contain a main building.
- (c) Small-scale solar collector systems shall not be permitted in the required front setback in the Residential One Unit (R1) Zone, Residential One and Two Unit (R2) Zone, Residential Mixed Density (R3) Zone, and the Residential Multi-Unit (R4) Zones.
- (d) Small-scale solar collector systems shall meet the applicable zone setbacks for accessory structures. *(Amended June 1, 2021, File 20-19)*
- (e) Small-scale solar collector systems shall not exceed 20 feet in height.
- (f) Small-scale solar collector systems shall be exempt from lot coverage and building footprint requirements in this By-law.

14.3.37 Large-scale Solar Collector Systems

- (a) Large-scale solar collector systems shall be permitted as an accessory use to any permitted use in the Rural Industrial (M3) Zone, Rural Commercial (C4) Zone, Agricultural (A1) Zone, Rural Mixed Use (A2) Zone, Farm Commercial (A3) Zone, Country Residential (A4) Zone, Tidal Shoreland (T1) Zone, and Resource (N1) Zone subject to setback requirements for accessory buildings and shall require a development permit.
- (b) Large-scale solar collector systems shall be permitted on lots that do not contain a main building.

- (c) Large-scale solar collector systems shall not exceed 20 feet in height.
- (d) Large-scale solar collector systems shall be exempt from lot coverage and building footprint requirements in this By-law.

14.3.38 Public Utilities

- (a) Public utility facilities owned and operated by a government, government agency, or agencies regulated by government including, but not limited to, sewage treatment plants, water supply facilities, pumping stations, drainage facilities, public transportation, energy generation and similar infrastructure, shall be permitted in all zones and shall be exempt from all general regulations and zone requirements and shall not require a development permit. *(Amended October 1, 2024, File P21-01)*
- (b) Buildings and equipment that are directly related to the functioning of a public utility facility shall be permitted in all zones and shall be exempt from all general regulations and zone requirements. However, general purpose office buildings, maintenance facilities, and storage buildings associated with the utility shall only be permitted in zones where such uses are permitted.

14.3.39 Public Uses

The provisions contained in this By-law shall not apply to the use of any land or to the erection or use of any building or structure for the purposes of the public service by a municipality, or any Department or Ministry of the Government of Canada or Nova Scotia.

1. Amended to add heading, October 1, 2024, File P21-01

- (b) Where a parking calculation results in a part of a parking space being required, the total shall be rounded up to the next whole number.

- (c) Where a use is not listed in Section 14.5.2 (a), the rate used to calculate the required parking shall be based on the most similar use.
- (d) Where a parking calculation related to a non-residential use results in fewer than four (4) spaces being required, a minimum of four (4) spaces shall be provided. *(Amended October 1, 2024, File P21-01)*
- (e) Except for golf courses and agritainment uses, where a parking calculation results in greater than 100 spaces being required, the property owner shall only be required to provide a minimum of 100 spaces.
- (f) Nothing in this section shall prevent a property owner from providing a number of parking spaces that exceeds the minimum parking requirements.

(Amended May 2, 2023, New Minas Secondary Plan)

14.5.3 Parking Variance

Property owners may apply for a variance to the required number of parking spaces where the number of existing spaces does not meet the requirements of Section 14.5.2 or if the required number of parking spaces cannot be provided on site. In addition to the requirements of section 235 of the Act, a variance shall not be granted if:

- (a) the number of existing spaces is less than four (4) spaces; and/or
- (b) there is adequate space on the lot to provide the required number of spaces.

14.5.4 Standards for Parking Areas

Parking areas requiring more than 6 parking spaces or for all properties with more than one (1) main use and/or main building shall meet the standards below.

- (a) The parking area shall be maintained with a stable surface.
- (b) If applicable, the lights used for illumination of the parking area shall be designed and installed in a manner that does not project onto adjacent properties.
- (c) When the parking area is of a permanent hard surfacing, each parking space shall be clearly demarcated and maintained as such.
- (d) Gasoline pumps or other service station equipment shall not be located or maintained in the required parking area.
- (e) Traffic aisles leading to and within parking areas shall have a minimum width of ten (10) feet for one-way traffic and a minimum width of 20 feet for two-way traffic.
- (f) Individual parking spaces and traffic aisles shall be located such that they do not interfere with the functioning of any entrance or exit to a building or structure.

14.5.4A Minimum Bicycle Parking Space Requirements

Within the Growth Centre of New Minas, bicycle parking meeting the requirements of section 14.5.6 shall be provided and maintained for every building or structure erected or enlarged, or for a change in use, in conformity with the table below.

Use	Minimum Required Bicycle Parking Spaces
Business Office	1 space/1,200 sq ft. CFA
Dwelling – 5 or more dwelling units	0.5 spaces/dwelling unit
Licensed Liquor Establishment	2 spaces
Personal Service Shop	2 spaces
Restaurant	2 spaces
Retail Store	2 space/1,200 sq ft. CFA

(Amended May 2, 2023, New Minas Secondary Plan)

14.5.5 Credit for Providing Bicycle Parking

Where a non-residential use in a Commercial Zone within a Growth Centre provides six (6) or more bicycle parking spaces and they meet the standards of section 14.5.6, the minimum number of parking spaces required for that use may be reduced by one (1) space.

14.5.6 Standards for Bicycle Parking Areas

Bicycle parking spaces provided to meet the minimum bicycle space requirements of section 14.5.4A or used for the purpose of credit in section 14.5.5 shall be subject criteria noted below:

- (a) Bicycle parking areas shall be located within 120 feet of the main public entrance to the building. Where a building has multiple main public entrances, the required bicycle parking spaces may be, and are encouraged to be, allocated among multiple entrances.
- (b) Bicycle parking areas shall not be located in the rear yard.
- (c) Bicycle parking areas shall be accessible to the public.
- (d) Bicycle parking areas shall not obstruct safe pedestrian and motor vehicle circulation or barrier-free access.
- (e) Each bicycle parking space shall be surfaced with concrete, asphalt, pavers, or other similar stable hard surface.
- (f) Each bicycle parking space shall have a minimum length of six (6) feet, a minimum width of 15 inches, and a minimum vertical clearance of six (6) feet.

- (g) Each bicycle parking space shall contain a bicycle rack secured to the surface and located to provide clear and unobstructed access for the placement and removal of bicycles.

(Amended May 2, 2023, New Minas Secondary Plan)

14.5.7 Parking in Institutional or Industrial Zones

In an Institutional Zone or Industrial Zone, no parking area is permitted in a required minimum general side setback abutting any Residential Zone.

Section 15 - ALTERNATIVE ENERGY GENERATION REGULATIONS

15.1 Summary of Alternative Energy Overlay Names and Symbols

Overlay Name	Symbols
Large-scale Wind Turbine Overlay	WO

15.1.2 Application of Overlay

The Large-scale Wind Turbine Overlay (WO) is shown on the Land Use By-law Zoning Map. In addition to the underlying zone requirements, the requirements of the overlay shall apply to the development of large scale wind turbines, in accordance with policy 2.8.7 of the Municipal Planning Strategy.

15.1.3 Large-scale Wind Turbine Overlay

In addition to the uses permitted within the underlying zone within the Large-scale Wind Turbine Overlay, the following additional uses shall be permitted:

Large-scale Wind Turbines

15.1.4 Large-scale Wind Turbines

In addition to the requirements of section 14.3 related to wind turbines, large-scale and utility-scale wind turbines shall be subject to the criteria noted below.

- (a) Large-scale wind turbine means a wind turbine with a height greater than 115 feet.
- (b) Utility-scale wind turbine means two or more large-scale wind turbines that feed electricity into the utility grid for the principal purpose of generating electricity for off-site consumption.
- (c) Large-scale wind turbines and utility-scale wind turbines shall be set back a distance 1.5 times the height of the wind turbine from lot lines and public rights-of-way. Where a lot line is common to two lots located within the same wind turbine project, no setback is required from that lot line.
- (d) The location of all large-scale wind turbines or utility-scale wind turbines shall be confirmed by a location certificate prepared by a surveyor licensed to practice in Nova Scotia.
- (e) Rotor blade clearance shall be at least 25 feet from grade for large-scale wind turbines or utility-scale wind turbines.
- (f) Large-scale wind turbines or utility-scale wind turbines shall not present a flight hazard or interfere with radio, telecommunications, or radar, as evidenced by a letter of no objection from the Department of National Defence, Transport Canada, NavCan, and/or other applicable agencies.

- (g) Large-scale wind turbines and utility-scale wind turbines shall have a separation distance between turbines equal to at least the height of the tallest wind turbine.
- (h) A permit for large-scale wind turbines or utility-scale wind turbines may be issued on a lot without frontage on a public road provided proof of access can be demonstrated.
- (i) The owner or leasee of the land on which wind turbines are located shall notify the Municipality within one calendar year of wind turbine inactivity and shall remove any wind turbines and associated infrastructure within two calendar years of wind turbine inactivity.
- (j) Development permit applications for large-scale wind turbines or utility-scale wind turbines shall, in addition to standard required information and the requirements of section 14.3.31, be accompanied by the items noted below.
 - (i) Site plan(s) showing all proposed and existing wind turbines, buildings, roads, boundaries, and natural features.
 - (ii) An emergency response and fire safety plan approved by the Municipal Emergency Coordinator.
 - (iii) A decommissioning and reclamation plan that includes provisions for the removal of all structures associated with the large-scale wind turbines or utility-scale wind turbines.
 - (iv) Any other information required by the Development Officer to determine whether the development conforms to this By-law.

Part 4 PROCESS

Section 16 DEVELOPMENT APPLICATION
PROCESS

Section 16 - DEVELOPMENT APPLICATION PROCESS

16.1 APPLICATION FOR DEVELOPMENT PERMIT

16.1.1 An application for a development permit shall include all items noted below.

- (a) A completed application form signed by the applicant (registered owner of the land or their representative or agent certified as such).
- (b) The application fee in accordance with the Fees Policy, as adopted by resolution of Council.
- (c) An accurate and complete statement of the proposed uses and scope of work.
- (d) A site plan for the land to be developed, drawn to scale, showing such information deemed necessary by the Development Officer which may include the following:
 - (i) Shape and dimensions of the lot
 - (ii) Identification of all abutting roads and existing and/or proposed access to the development
 - (iii) Identification of all rights-of-way and easements within the subject property
 - (iv) Identification of all watercourses
 - (v) Location and dimensions of existing and proposed buildings including distances from lot boundaries
 - (vi) Proposed parking spaces and traffic aisles including dimensions
 - (vii) Location of garbage storage areas or enclosures
 - (viii) Location of any required vegetation, fences, or buffering
 - (ix) Location of any required amenity areas and pedestrian pathways
 - (x) Sign location and details
 - (xi) North arrow and date of drawing
- (e) Floor plans and elevations of the proposed development, drawn to a scale acceptable to the Development Officer.
- (f) Any additional information as required by the Development Officer in order to evaluate any application in accordance with this By-law and in accordance with policy 5.2.1 of the Municipal Planning Strategy.

16.1.2 In addition to the requirements of 16.1.1, a stormwater management plan prepared by a Professional Engineer licensed to practice in the province of Nova Scotia and consistent with the Municipal Specifications may be requested by the Development Officer as part of the development permit application materials. *(Amended September 2, 2025, File 25-09)*

16.2 DECISIONS OF DEVELOPMENT OFFICER

- 16.2.1 A development permit shall be issued by the Development Officer in accordance with the Act provided:
- (a) the proposed development is in conformance with this By-law;
 - (b) the Development Officer has granted a variance pursuant to Section 235 of the Act; or
 - (c) the proposed development is in conformance with an approved development agreement pursuant to Section 228 of the Act.
- 16.2.2 The Development Officer shall refuse a development permit application in accordance with the Act where the proposed use is not permitted and/or if it does not meet the requirements of this By-law.
- 16.2.3 The Development Officer may revoke a development permit where information provided on the application is found to be inaccurate or if the development is not in compliance with the scope of work approved on the development permit.
- 16.2.4 A location certificate prepared by a registered member in good standing of the Association of Nova Scotia Surveyors shall be required for the following developments:
- (a) New buildings containing main uses;
 - (b) Any development where the Development Officer is unable to determine whether the proposed development conforms to this By-law and other by-laws and regulations in force which affect the proposed development; and
 - (c) Notwithstanding (a) and (b) above, new buildings containing agricultural, forestry or fishing use may be exempted provided they are not the first building on the lot.

(Section added October 1, 2024, File P21-01)

16.3 VARIANCE AUTHORITY

- 16.3.1 The Development Officer may grant a variance pursuant to Section 235 of the Act and in accordance with policy 5.2.3 of the Municipal Planning Strategy.
- 16.3.2 In the event that a variance is granted, the Development Officer shall specify the nature of the approved variance in the development permit approval.

16.4 TIMEFRAME OF DEVELOPMENT PERMITS

- 16.4.1 Every development permit issued under this By-law shall automatically lapse, and become null and void if the development to which it relates has not commenced and 12 months have passed since its issuance, in accordance with policy 5.2.2 of the Municipal Planning Strategy.
- 16.4.2 A development permit may be renewed provided the proposed development is in conformance with the By-law that is in force at the time of application for renewal in accordance with the Act.

Part 5 DEFINITIONS

Section 17 DEFINITIONS

Section 17 - DEFINITIONS

For the purposes of this By-law, all words have the meaning or meanings that are assigned to them by accepted English dictionaries, except for the words that are defined in this section.

Abattoir means a building, structure, land, or part thereof, used for the slaughtering and processing of animals. The housing of live animals is limited to those to be slaughtered and not for the purpose of fattening animals.

Abut means where properties or lots share a common lot line or a common point along a lot line.

Accessory Building means a detached building located on the same lot as a main use or main building, the use of which is incidental or secondary to that of the main building and which is not used for human habitation, unless otherwise permitted in the zone. For clarity, a breezeway may connect the accessory building and is only considered ornamental in nature.

Accessory Commercial Patio Area means an outdoor area that is accessory to a main commercial use located within a building on the property. The area may include outdoor seating areas, fire pits, and other open air structures. *(Added November 4, 2025, File 25-01)*

Accessory Dwelling means one (1) self-contained residential unit that is wholly contained within an Accessory Building. *(Amended October 3, 2023, File 22-04)*

Accessory Use means a use that is subordinate or incidental to the main use on a lot and/or in a building and includes, where permitted, the construction of dwellings and other accessory buildings for the operation of the main use.

Aggregate Related Industries means a building, structure or land, or part thereof, used for aggregate processing, storage, and related uses including, but not limited to asphalt processing, concrete batching and component manufacturing, sand pit operations and mineral bulk storage but excludes uses ancillary to Aggregate Resource Extraction.

Aggregate Resource Extraction means sand, gravel and mineral extraction including pits and quarries conducted under a permit issued by the Province of Nova Scotia and includes ancillary activities such as crushing.

Agricultural Equipment and Parts, Sales, and Service means land, a building, or a portion of a building used to sell, lease, rent, service, or repair agricultural equipment or agricultural equipment parts.

Agricultural Related Industries means a building, structure, or land, or part thereof, used for processing agricultural crops, including, but not limited to, sorting, grading, packaging, food and feed preparation, fertilizer production, brewing, wine-making and similar uses but excludes Abattoirs and Animal By-products Plants. For clarity, Agricultural Related Industries are not required to be associated with a farming business.

Agricultural Use means the use of land, buildings, or structures for the cultivation of crops such as, but not limited to, corn, hay, fruit and vegetables and shall include a greenhouse. This definition includes bee

keeping and animal pasturing but excludes buildings for the raising of animals, which is covered by the definitions of livestock operation and household livestock.

Agritainment Use means an agricultural-themed entertainment use such as, but not limited to, petting zoos, hay rides, u-picks, pumpkin patches, play areas, games, mazes, trails, farm tours, workshops, farm demonstrations, theatres, museums and other indoor or outdoor entertainment uses based on agricultural topics and/or using agricultural props.

Amenity area means the area(s) that form part of a multi-unit residential development intended for recreational purposes, and shall include one or a combination of the following:

- (a) *common outdoor spaces* that are accessible to all residents within the residential development and may include spaces such as play areas, swimming pools, tennis courts, or sports fields. Such areas shall be of a size and shape that can reasonably be used for recreation purposes and shall be, at a minimum, cleared, leveled and grassed or otherwise landscaped;
- (b) *private outdoor spaces* that are provided as a separate spaces to the residential units and may include spaces such as decks, patios, or balconies; and/or
- (c) *indoor common spaces* that are provided within multi-unit buildings in such a way that they are accessible to all residents of the dwelling and may include spaces such as gyms, lounges, or games rooms.

Animal Boarding Facility means a building or part of a building where domestic household animals are kept, boarded, bred, or offered day care and may include an animal shelter or a kennel.

Animal By-products Plant means a building, structure, land, or part thereof, used for the processing and/or rendering of animal carcasses and animal parts and excludes abattoirs and processing for human consumption.

Animal Unit means one or more farm animals, as specified in the following table. For the purpose of calculating the number of animals units permitted on a property the following steps described below will be used:

- (a) Young offspring are permitted and not counted towards the total number of animal units until fully grown.
- (b) Animal unit fractions are rounded to the nearest whole Animal Unit.
- (c) Farm animals that are not listed in the table are counted according to the most similar type of animal listed in terms of size and characteristics.
